Stand Top

All of Kupo lighting stands are available with industry standard top fixings of mounting lighthead and lighting accessories.

T : Compact lightweight aluminum stands with 5/8” (16mm) fixing top and 3/8” -16 screw thread.

A : 5/8” (16mm) fixing light stud

G : Permanently fitted 4 1/2” grip head with additional offset 1 1/8” (28mm) socket.

V : Triple function universal top head with both 1 1/8” (28mm) and 5/8” (16mm) socket. Extra multi direction 5/8” (16mm) light stud.

S : 5/8” (16mm) socket with a detachable 5/8” (16mm) light stud. One end 3/8” -16 and another end 1/4” -20 screw thread.

VJ : Triple function universal top head with both 25mm and 17mm socket. Extra multi direction 16mm light stud. (Japanese Type)

SJ : 17mm socket (Japanese Type)

A full range of locking mechanisms.

Stand riser columm collars are pressure die cast aluminum for strength and incorporate ergonomic locking knobs that hold the light exactly where positioned.

Special Features

Unique bottom spider casting design makes folded stand can be set alone on its own.

Bottom spider casting with spring cushioned to prevent jarring of the lamp filament. For those steel stand recited with "spring cushion".

Assembled by bolts and nuts for easier maintenance and tightness adjustable instead of fixed rivets.

Double leg struts for extra strength and stability.

The stand leg is equipped with nylon feet to protect both leg and ground.

Leveling leg allows stand keeping vertical in any circumstance.

Upper spider casting with extender for hanging sandbag on the center position.

Solid cross pin design in aluminum stand for a better stand stud mount.

The lightweight aluminum stand with aluminum clamping riser which provide a good elasticity. Unlike plastic riser that has memory and result to break.

All the aluminum casting knob comes with a mold-in stainless steel bolt for lightweight & long-lasting clamping operation.

Baby pin is welded directly to the riser instead of being pinned in steel stand.

Each KUPO Stand comes with velcro supplied to fasten the legs for better storage and cable management.

New innovation compact top head with multi direction 16mm (5/8”) light stud.

Ear ring device for wind-bracing kit.

The stainless steel heli-coil insert is equipped inside the aluminum die-casting riser provides a durable threaded hole.

A sizable brake shoe to ensure a much better lock off.

Kupo wind-up stands are constructed by chrome plated steel with geared column that enable a single operator to raise and lower heavy loads safely with just turn of a handle. Both risers extend simulataneously at one elevation of 4.4cm by per handle turn. The unique automatic self-locking mechanism is equipped to prevent the light stand from dropping unexpectedly making the operation safer.

Auto Self-Locking device stop unexpected drop-off, and make operation safer.
(PATENTED)

Lock postion
The safety pin will auto insert to the holey tube when wind-up.

Unlock position
The inside spring will bring the safety pin back.

Velcro is supplied to fasten the legs for better storage and transportation.

Top section tube can be adjusted by stepping on foot step.

483-BP **Base Plate**
Set for three available with 481,482, 483T, 470 stands.

Features of Wind-up stand :

The stand top mounted by a steel bolt through the top tube that offers most sturdy and solid assembly.

The tension of break shoe can be adjusted with Allen wrench.

The wind-up handle should be inserted in between center pole and legs to prevent the tube falling suddenly.

Leveling legs should be set into horizontal at leanning location.

Bright color warming sticker for safety operation.

Casters are optional for easily moving the stand. The stand foot is rugged zinc-casting. Dia.: 100mm with brake and M10 attachment.
A set is for three (KC-100).

Kupo c stand w/Turtle Base is easy to set up, durable and solid stand specially designed for professional photographers, film makers and videographers. The unique leg locking system makes deploying and collapsing the legs a snap and can be done within second with pulling up the spring ring and twist the stand. More features are including :

1. Zinc casting alloy makes the leg base holders most solid and sturdiest.
2. Stainless steel heli-coli give protection for the aluminum riser from being damaged by stainless steel bolt of knob.
3. The unique hollow design of the junior pin receiver on the base also makes dust, sands and water pass through easily for better cleaning and easy maintenance.

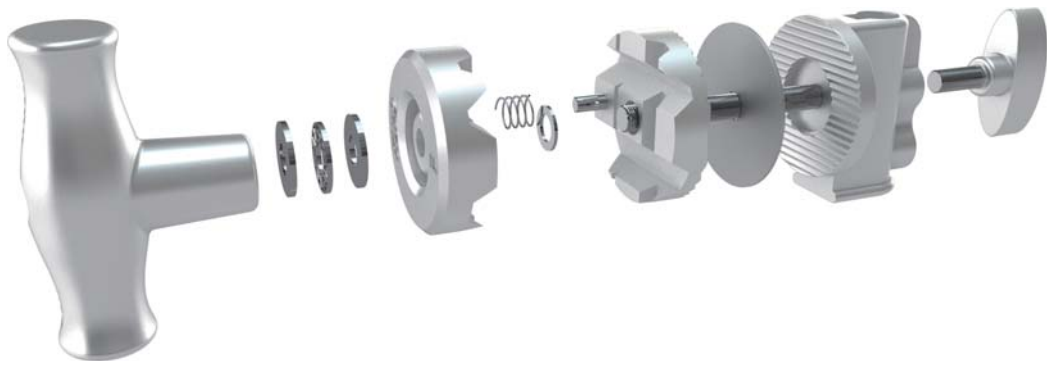
KUPO Grip Head (also Gobohead) is specially designed to be mounted on C-stand with its 16mm socket. Four different size and rotatable V jaw allows you to attach the scrims, flags, cutters, reflectors and backdrops to meet various requirements of lighting control.



More Feartures：

1. Aluminum casting body with 16mm mounting hole for a 5/8" (Baby) stud or stand top.
2. Non-slip, Non stick aluminum braking pad instead of fiber which would be deteriorate offering positive lock and precise control.
3. Large size T-handle is ergonomic design for biggest torque - follow right hand rule.
4. Four V jaws for different dia. (5/8”, 1/2”, 3/8”, 1/4”) pins or tube.
5. V jaws with special tooth design offers a better grip.
6. Steel material makes the located pin sturdier than aluminum casting pin.
7. Stainless steel central bolt with fixed solid pin provides most durable construction.
8. Dedicated bearing added to reinforce the torque for stronger grip.
9. A solid retaining pin to fix the casting body with stainless steel central bolt.

Extra reinforced roller pin to fix extension arm.

KCP-241 40’’ **Extension Grip Arm with Baby Hex Pin-Silver**
It features the arm terminated with a hex baby pin which is suitable for mounting a lighting fixture or anything with baby receiver.

Baby hex pin

Kupo Flag frame is made by dia. 5mm spring steel with a dia. 9.5mm mounting pin.

KCP-F1824 **Flag Frame 18” x 24”**
KCP-F2436 **Flag Frame 24” x 36”**

Kupo Open frame is made by dia. 6.3mm spring steel with a dia. 9.5mm mounting pin.

KCP-OF1824 **Open Frame 18” x 24”**
KCP-OF2436 **Open Frame 24” x 36”**

KS-022 **Grip Arm Pin**
5/8’’ steel baby pin, with 5’’ (12.7cm) length, is designed for fitting into the grip head and can be connected to the lighting fixtures or other grip accessories.

KCP-215P Grip Arm Support

This is specially designed for giving the most support for grip arm very easy. It is constructed by an extendable aluminum column and comes with the ball joint pivot clamp in one end and with an angle-adjustable attachments in the other end. The attachments is also easy to be fitted into KCP-930 which is lightweight aluminum clamp for quickly coupling the stand tube from 35mm to 50mm with its spring locking design. With this functional support arm, not only loading weight of grip arm could be increased but sliding problem could be solved.

L 56cm 22” H max 78cm 30.7” W 0.5kg 1.1lbs

Tiny clamp with double ball

Length adjustable knob

3-4 way clamp adapter

KCP-216 Boom Arm Support

Similar to KCP-215P but gives the support for boom arm instead of grip arm. This is constructured by an two sections extendable aluminum column and terminated with angle-adjustable attachement in both end. With connecting with two 4 way clamps KCP-950 on the stand tube and boom arm, the loading weight of boom arm is signiciantly increased.

L 56cm 22” H max 78cm 30.7” W 0.5kg 1.1lbs

KCP-640M **Steel Baby Boom**

This boom arm can be used to position reflectors, flash heads, screams, tungsten lights and muslin backdrops. A chrome steel boom with 5/8” baby stud, telescopes from 3.8-7.8’ (1.1-2.4M) and supports upto 11lbs (5KG) when fully extended. The heavy duty tilt locking device is designed to cooperate with standard grip head to provide a tightly lock ability and it allows the boom to slide within it to adjust the balance of your load. The hook end allows hanging a sandbag for added support.

Hanging a sandbag for added support.

KCP-641B **Aluminum Baby Boom**

The same function as KCP-640M but with aluminum boom arm. It telescopes from 3.8-7.8” (1.1-2.4M) and supports up to 6.6lbs (3KG) when fully extended.

With 5/8” (16mm) light stud
2 risers, 2 sections
(Dia.: 25mm, 30mm)

L 118cm 46.5” H max 240cm 46.5”

W 2.28kg 5.02lbs T T

KCP-630 **Junior Drop Down**

Designed for use on the end of a boom arm to maintain a constant downward angle of a mounted light fixture, as the angle of the boom arm is changed.

KCP-631 **Baby Drop Down**

The same function as KCP-630 but with baby receiver and baby pin. Additional knob on the elbow is made to keep the lighting fixture no moving while specific angle is needed.

KCP-645 Pivoting boom arm clamp

Kupo pivoting clamp is constructed by solid aluminum die-casting & plastic cardboard insert which can fit a wider tubing size from 30~35mm diameter boom. With 1-1/8" (28mm) male pin and 5/8" (16mm) female receiver, the attachment of clamp can fit into junior receiver or mount on baby pin which gives great flexibility and adjustment.

Adjustable Extension Columns

Kupo offers various adjustable extension columns included lightweight aluminum and heavy duty steel columns to meet professional lighting control requirements by connecting with couplers, clamps, stands etc.

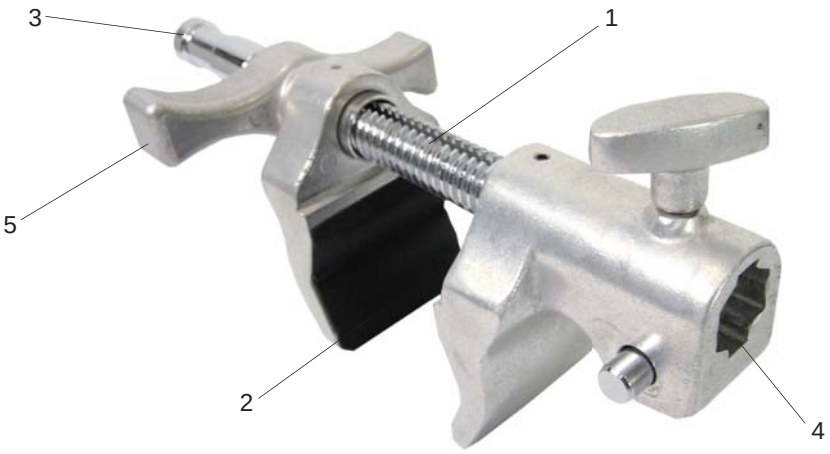
Super Viser is built by aluminum die casting body making it sturdy and lightweight. The moveable jaws are designed for mounting on the tubes or planks upto 101mm (228mm is available for longer version KCP-601). With the innovative grooved design on the threaded shaft, the both jaws can be kelpt on the same direction all the way. In addition to the 16mm pin terminated at the end of shaft, the unique design of 16mm socket is also built on the clamp that allows all accessories of Convi. Clamp can fit into Super viser



The groove

PU Pad on Jaws

Features:

1. The groove on the threaded shaft keeps both jaws in the same direction all the time.
2. The P.U. pad on the jaws offer excellent grasp and protection from surface of tube s or plank.
3. The threaded shaft terminates as a 16 mm pin for mounting lighting fixtures or grip accessories.
4. The adaptor socket complements the full range of Convi clamp.
5. The ergonomically designed handle provides biggest torque.

KCP-600 **4”(11.40cm) Super Viser**

KCP-601 **9”(22.90cm) Super Viser**

Application:

KCP-605, is 11.9'' (30cm) long chain clamp with 6'' (10” is also available for KCP-606) of steel chain. With the flexible chains, it can hold around any shape of wide size objects and adjust quickly by turning 5/8'' baby stud in the rear of clamp. Meanwhile, the safety T-handle is also designed to eliminate any risks of unexpected looseness of the trigger.

KCP-605
6” (15.2cm) Chain Clamp

KCP-606
10” (25.5cm) Chain Clamp

Features:
1. Ideal for holds awkwardly shaped pieces.
2. Easy to adjust pressure and fit work with turning the 5/8'' baby stud in the rear of clamp.
3. The chain built by high-grade heat-treated alloy steel for maximum toughness and durability.
4. Two 5/8'' baby pin provides strong support for lighting fixture with opposite directions.
5. The embossed neck of 5/8'' baby studs offer the maximum friction for mounting lighting fixture.

Embossed neck offers the maxinmum friction

Always lock with safety T-handle for better protection.

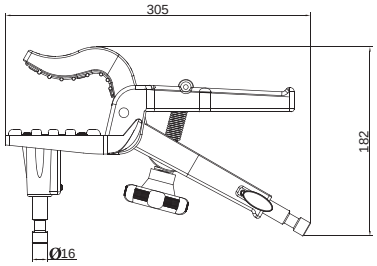
On the tree

On the steel tube

KCP-500 **Large Gaffer Grip**

Quick release multi-purpose clamp which will grip flat surface or barrels. It comes with a tension control knob and a 5/8'' socket & stud for two small fixtures or grip items. The clamp works on diameter from 1/4'' to 3-1/8''.

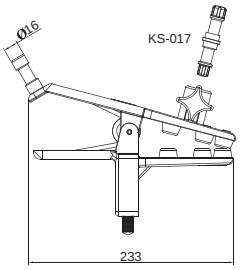
Weight:1.25kg (2.8lbs)



KCP-550 **Small Adjustable Gaffer Grip**

Two small fixtures or grip items can be mounted onto the 5/8'' spigots including one fixed on the clamp and the other is detachable stud, which is with 3/8'' and 1/4'' thread, embedded in the 5/8’’ female receiver. Jaws is adjustable from 0.98 - 2.56'' (2.5 - 6.5cm).

Weight: 0.66kg(1.5lbs)



Convi Clamp

The Convi clamp, is made of lightweight cast alloy, can be securely mounted on any tube from 5 to 51mm and equipped with a saddle for mounting onto flat surfaces. The Elastic P.U. Pad also reduces surface damage and enhances gripping action. All mental parts are made of stainless steel for sturdier and anti-rusted features. The die -casting aluminum of locking knob provides with most rugged advantage. With built-in female socket allows the use of any attachments to hold anything from backgrounds to lighting fixtures. The spring safety locking system also offers double insurance while the screw locking action is not completely finished.

10X10 CM palte welded with a 5/8" hex stud for fitting into Convi clamp.

KS-012 **Swivel Steel U hook**
Steel U hook with a hex pin perfect for hanging strobe packs, HMI babllasts, or rigging background crossbars to light stands.

KS-014 **Hex Stud 3/8''-16M & 1/4''-20M**
Solid bass hex camera stud is designed to Convi clamp. It comes with 3/8'' -16 male and 1/4'' -male thread to Mount camera directly to with a camera head.

KS-014R **Round stud 3/8''-16M & 1/4''-20M**
Solid bass round camera stud with 3/8'' -16 male and 1/4'' -20 female thread to Mount camera directly to with a camera head. This is replacement stud for the Tilting umbrella adapter.

KS-015 **Hex Stud 3/8''-16F & 1/4''-20F**
Solid bass hex adapter is designed to Convi clamp. It comes with 3/8'' -16 female and 1/4'' -20 female thread.

KS-015R **Round Stud 3/8''-16F & 1/4''-20F**
Solid bass round adapter comes with 3/8'' -16 female and 1/4'' -20 female. This is replacement stud for the Tilting umbrella adapter.

KS-016 **90/45 degree Joining Stud**
Designed for Convi clamp can be joined back to back at right or repeatable angles.

KS-017 **Universal 5/8'' (16mm) stud w/ 3/8''-16M and 1/4''-20M**
Solid round brass made stud can fit into any 5/8'' (16mm) receiver which can be the adapter from baby receiver to baby pin.

KS-018 **5/8'' (16mm) stud w/M10 thread**
Easy to be mounted on the yoke of lighting fixture with the M10 thread and butteryfly knob. And connected with Convi clamp with 5/8'' (16mm) stud.

KS-020/B **5/8'' compact Alu. Snap in Pin**
Lightweight aluminum 5/8'' (16mm) adapter with hex stud for Convi clamp and round head in the other side.

KS-023 **3/8’’ head mounting plate w/ 5/8’’ stud**
Round flat plate made to mount head or any other accessory tapped with a female 3/8’’ -16 thread to Convi clamp or any equipment has a baby receiver.

KS-024 **1/4’’ head mounting plate w/ 5/8’’ stud**
Round flat plate made to mount head or any other accessory tapped with a female 1/4’’ -20 thread to Convi clamp or any equipment has a baby receiver.

KS-025 **Hex Camera stud 3/8’’-16**
Hexagonal end is for Convi clamp and 3/8’’ -16 male in the end side for Camera. Made by solid bass.

KS-026 **Hex Camera stud 1/4’’-20**
Hexagonal end is for Convi clamp and 1/4’’-20 male in the end side for Camera. Made by solid bass.

KS-027 **5/8’’ (16mm) Male Adapter (M10)**
Steel made 5/8’’ (16mm) Adapter with tapped M10 thread female.

KS-052 **3/8’’-16F to 1/4’’-20M adapter**
Solid brass made small adapter that converts a 3/8’’ -16 female thread to a 1/4’’ -20 male thread.

KS-063 **3/8''-16M to 1/4-20'' F adapter**
Solid brass made small adapter that converts a 3/8’’ -16 male thread to a 1/4’’ -20 female thread.

KS-053 **Adapter for thread 3/8’’-16 to 1/4’’-20**
Made to convert 3/8"-16 Thread for 1/4"-20 Screw And set for 5.

KS-051 **1/4"M - 1/4"M Adapter Spigot**
Dual male stud with standard 1/4” 20 tripod thread

KS-054 **3/8" M- 1/4"M Adapter Spigot**
Dual male stud with 3/8’’ to 1/4’’ thread adapter.

KS-074 Long Double Stud-5/8”
4.9’’ long double 5/8’’ baby stud designed to connect a light to Convi clamp or an arm with a grip head.

KS-076 5/8’’Stud with 1/4’’-20’’ Female Thread
3.5 inch long 5/8’’ baby stud with 1/4’’ -20 female thread which is designed to mount a stud on your tripod or anything with a 1/4-20" thread.

KS-031 Snap in Right Angle
Right angle 5/8’’ baby stud with hex stud in the other end for not rotating while fitting into Convi clamp. Hex stud fits into Convi clamp and longer right angle 5/8” baby stud for mounting lighting fixture or grip head.

KS-043 Right Angle Baby Wall Plate
3 X 5” (9X5 cm) plate welded with a right angle 5/8’’ baby stud. 8 anchor points are for nail or screws giving options for mounting anywhere. May be used on a wall, ceiling, or an apple box where there is not easy to set up a lighting stand or boom arm.

KS-044 9'' Baby Wall Plate
With the same plate size and function as baby wall plate , but with welded 9’’ long 5/8’’ baby stud.

KS-045 6'' Baby Wall Plate
With the same plate size and function as baby wall plate , but with welded 6” long 5/8’’ baby stud.

KS-046 3'' Baby Wall Plate
With the same plate size and function as baby wall plate , but with welded 6’’ long 5/8’’ baby stud.

KS-048 Junior Wall plate
With the same plate size and function as baby wall plate, but welded with a 4’’ long 1-1/8’’ junior receiver for a larger lightings.

KS-047 Baby Receiver Plate
With the same plate size and function as baby wall plate , but welded with a 5/8’’ baby receiver. Great tool to mount a lighting fixture or grip accessories to a wall. A reserve mounting to a baby stand directly or take off the knob for access into junior receiver used as platform for monitor, speaker or lighting fixture.

KS-057 Offset Baby Wall Plate
With the same plate size and function as baby wall plate , but with welded 9" long post with 2 Baby (5/8") mounting studs for fixtures.

KS-030
28mm steel spigot with M10 thread and wing nut, attaches it to lighting yoke then fits into standard lighting stand with 28mm receiver.

KS-032
28mm steel spigot with M12 thread and wing nut, attaches it to lighting yoke then fits into standard lighting stand with 28mm receiver.

KS-034
Solid steel 28mm TV spigot tapped for M10 screw with washer, ideal for mounting lighting fixture directly on to stands or any TV clamps with 28mm receiver.

KS-090 TVMP Adapter
The TV to Motion Picture adapter is designed to attach on the yoke of lighting fixture that can be mounted the stand or fitting into a junior receiver of clamp rigged on the truss.

KS-060
Locking adapter for 5/8" light stand allows vertical or horizontal mounting of a light fixture, flash, or camera that has a 1/4"-20 threaded receptor.

KS-062
Locking adapter for 5/8" light stand allows vertical or horizontal mounting of a light fixture, flash, or camera that has a 3/8"-16 threaded receptor.

KS-070
Female Adapter 16 to 17mm. This is an aluminum female to female adapter. Used to converts a converts 5/8" male light stand top to a to 17mm female socket or to obtain a 17 mm female attachment from 16 mm spigot.

KS-071 Double Baby Receiver Adapter
5/8" (16mm) to 5/8" (16mm) female adapter made by Chrome plated steel with welded boss for long-lasting operation of the knob.

KS-040
28mm steel spigot with a 12cm round mounting plate fits into standard lighting stands or to convert a 28mm receiver to a M10 thread with wing nut.

KS-042
28mm steel spigot with a 12cm round mounting plate fits into standard lighting stands or to convert a 28mm receiver to a M12 thread with wing nut.

KS-080 **Ball Race Spigot M10**
A rotating 28mm spigot with M10 screw attached. Use this to make a lighting fixture into a follow spot. The smooth panning action is assured by roller bearing inside and a locking knob to control the position.

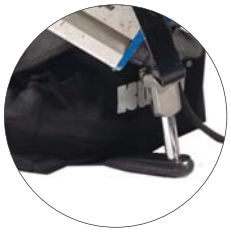
KS-082 **Ball Race Spigot M12**
A rotating 28mm spigot with M12 screw attached. Use this to make a lighting fixture into a follow spot. The smooth panning action is assured by roller bearing inside and a locking knob to control the position.

KS-029 **Monitor Adapter**
(Plate: 75mm x 75mm)

KD-M01P **LCD Monitor Arm**
Max. Load: 8 kg
Clamping Tube: Dia. 40 ~ 52mm
Mounting Plate: 75 x 75mm / 100 x 100mm

KS-200 **Junior to Baby Adapter**
This adapter converts 1-1/8” female receiver to 5/8” male stud. Well construction from solid steel with chrome plated. Very helpful to fits into a heavy duty light stands and T.V. clamps or turtle base C stand to mount standard studio flash or video lighting fixtures.

KS-049 **Scraper**
It is very handy for unusual placements. The 1.1mm thin metal plate for easily jamming into the seams between the door and wall, under a set of books on a bookshelf, held with a sandbag, clamped to a ladder step, in a rock crack, etc. The embossed neck of 16mm baby stud fixed on the plate also designed for firmly hanging small lighting fixture. Additional three anchor points for the screws and nails fixed on the woodenware or ground.



KCP-230 Griphead
w/ Swivel 5/8” Pin

KCP-310 EZ Grip Finger
The 16mm socket (inside) or 28mm (outside) attached to the ball joint pivots from -45° to 90° while the collar rotates 360° incorporated a 5/8” pin.

KCP-311 EZ Grip Receiver
The 16mm socket attched to the ball joint pivots from -45° to 90° while the collar rotates 360° incorporated a 16mm socket.

KCP-320 EZ Grip Twins
The 5/8” attached to the ball joint pivots from -45° to 90° while the collar rotates 360° incorporated a 5/8” pin.

KCP-340 Baby Plate w/EZ Grip Finger
The square plate attached to the ball joint pivots from -45° to 90° while the collar rotates 360° incorporated another 5/8” pin. (Plate size: 15cm x 9cm)

KCP-330 Tiny Clamp
Steel tiny clamp is ideal for clamping round tube from 2mm to 16mm. Thumbscrew and 1/4” male thread with locking ring for mounting a camera, radio transmitter and lightweight accessories.

KCP-400
Aluminum casting clamp with 5/8” baby receiver for attaching to 35x35mm square pipe.

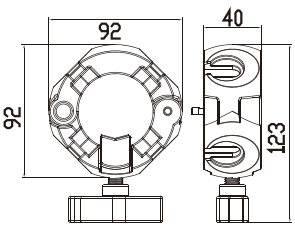
KCP-420
Aluminum casting clamp with 5/8” baby stud for attaching to 35x35mm square pipe.

KD-CF16P
The same function as KD-CM16P but with 5/8’’ (Baby) receiver.

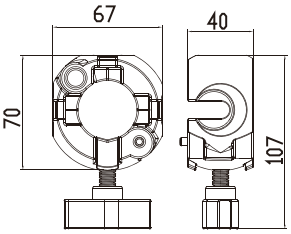
KD-CM16P
Designed for mounting a small light instrument from a drop ceiling frame with the 5/8” (Baby) stud.

Four way clamp is constructed of aluminum dia-casting which is very lightweight and durable. The unique spring locking device makes locking just a snap and easy. The equipped P.U. pad also reduces surface damage and enhance gripping action. This is for coupling onto any tube size from 35mm to 50mm such as stands, kupoles, or scaffolds in vertical or horizontal way. The safety loading weight is up to 30KG (66 lbs)

KCP-950P **4 Way Clamp**
for 35mm to 50mm tube



KCP-930P **3 Way Clamp**
for 25mm to 35mm tube



Application:
Adapters connectted with 4 way clamp

KS-091
Lightweight aluminum 5/8" stud for grip head
(total length: 108mm)

KS-092
Lightweight aluminum 5/8" Male Adapter
(total length: 66mm)

KS-093
Lightweight aluminum 5/8" Female Socket Adapter

KS-094
Solid steel right angle baby stud

KCP-620P
Lightweight aluminum Petite Clamp for 16mm (5/8") tube

Application

With Camare Bracket

With Lighting Fixture

KS-058 **Baby Offset Arm**
The 380mm Baby Offset Arm with two baby pins and one baby receiver, mounts on a baby stand where a light cannot be placed as close as desired to a subject or need to come over the top of the set to hide the stand behind a set wall. Caution: When offsetting a light also offsets the weight, it is necessary to place a sandbag or counterweight to prevent the tipping of the stand.

KS-059 **Junior Offset Arm**
The 470mm Junior Offset Arm with a junior pin and receiver, offset a large light fixture from its stand. Mounts to a stand with a junior pin top, with junior receiver which light can be mounted either over or under way (a safety linchpin is attached).

KCP-808 **Baby Side Arm**
Baby side arm with heavy duty coupler fits on diameters from 40-52mm tube with total length 380mm and double baby pins. This enables you to position of a light head or grip head at a lower position or mounts an additional light without the need for another stand.

KCP-809 **Junior Side Arm**
A heavy duty couplers with 380mm side arm and junior receiver which allow offsetting or adding a large light fixture on a stand either over or under way (a safety linchpin is attached).

KCP-806 **Side Arm with Baby Pin/ Receiver**
The same function as KCP-808 but specially design for tube size from 31cm (1.25'') to 38cm (1.50''). For example, it can fit into C-stand tube size 35 mm (1.4''). With the welding adapters included one baby pin and baby receiver, it offers the flexibility of connecting the small lighting fixture with the baby pin and other accessories with the baby receiver.

KCP-300 **Articulated Arm**
Articulated arm to lock and hold small lighting and effects in accurate position.
The end socket is a 5/8" baby pin on the outside which can hold small lighting fixture.
The inside is a 3/8"-16 thread which will accept the standard dot and camera accessories.
Weight: 0.86kg

KS-019 **Swivel Extension Arm w/5/8'' Receiver**
A mini extension arm with 5/8'' baby receiver and a hexagonal stud on the other side for fitting into Convi clamp. The double ball elbow joint offering the ability to articulate the two sides in any directions.

KD-735P **Mini Flex Arm with Alligator Clip**
The Mini Flex Arm with Alligatoe Clip is a flexible arm with a 3/8'' -16 female thread tapped inside A baby 5/8'' (16mm) stud on one side and an alligator clip on the other. It' s the perfect accceeory to hold small items such as a mini flag or reflector. It' s 11.4'' (29cm) in length.

KCP-343 **Flex Arm Kit for Dots and Fingers**
The kits comes with a 14mm diameter, 45cm long double 3/8"-16 female threads flex arm and two adapters included KS-038 which is hex adapter tapped with a 3/8" -16 female thread at one end and a 3/8"-16 male thread at the other for connecting to flex arm with Convi clamp and KS-038DR which is dot receiver with 3/8"-16 female thread and 16mm O.D. as a baby pin. Each adapter can be fixed with included M4 set screw, it offers the flexibility to fix or unfix the adapters from the arm whenever there is 3/8" -16 threads available. It is good for positioning of small gobos, flags, reflectors, props or flash head.

KCP-344 **Flex Arm**
The 45 cm long flex arm comes with double 3/8"-16 female threads which connected with the brass made 3/8"-16 female and 1/4" male thread adapters. It works great with Convi clamp or stand with3 /8"-16 stand top for easy adjusting position of any objects mounted on the arm. The same way to fix and unfix the adapters from the arm by set screws as KCP-343 and KCP-345.

KCP-345 **Flex Arm for French Flag**
The 45 cm long flex arm comes with double 3/8"-16 female threads which attached with one side zinc casting clamp for connecting to camera and the other side with French flag holder which hold the flag to block unwanted light from hitting lens usually resulting in a lens flare.

KS-050 **Flag holder**
Designed to fit on KCP-345 Flex arm and made of zinc casting material with M6 thread.

KCP-346 **French Flag**
Black Metal French flag for blocking lightings (40 cm X 25cm)

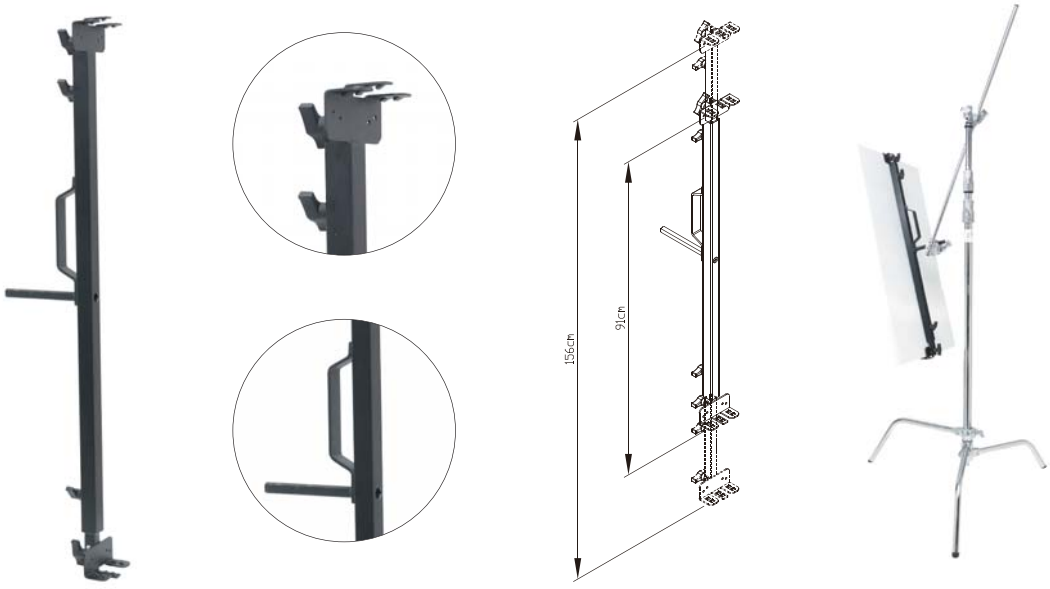
KS-038 **Hex Adapter**
Hex adapter with3/8"-16 male thread

KS-038DR **Dot Receiver**
Dot receiver with 3/8"-16 male

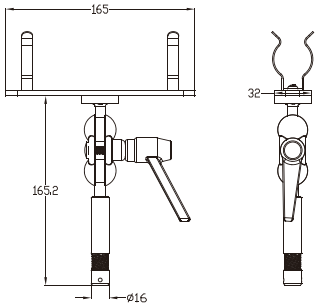
KCP-610 **Foamcore Fork**
Four pointed steel pins with balck powder coated to mount foam core and comes with a 5/8" baby stud. Desiened to stab it into the side of foam coreand and may mount it on a stand, grip head or Convi clamp.
Weight: 0.4kg (0.88 lbs)

KCP-611 **Foamcore Clamp**
U-shaped steel holder with black powder coated to mount foam core and comes with a dia. 10mm chrome plated steel stud to connect with grip head. Two spike pins are attached with strings for securely fixed the foam core through the holes drilled on the both sides and the bottom of holders.
Weight: 0.5kg (1.76 lbs)

KCP-614 **Adjustable Poly Holder**
Adjustable poly holder is made by lightweight aluminum central tube and two durable extendable steel holders with anti-refection black powder coating. This is designed for any thickness of polyboard, or foamcore sheets from 91cm (3 ft) to 156cm (5 ft). The extendable clip equipped in the end of each holder is used to hold a polyboard parallel to the floor while the poly holder is in a vertical position. The central aluminum tube comes with a 14.5cm length steel baby pin with milled flat on one side for mounting on C-stand through grip head KCP-200 securely. U-shaped handle is also fixed on the central tube to make it easy for moving or adjusting the angle of poly holder.
Weight: 2.5 kg (5.5lbs)



KCP-380 **Kino Flo Fluorescent Lamp Holder**
Designed for holding a single Kino Flo T-12 fluorescent lamp / tube with double spring steel clips. Swivel ball joint design comes with neck-embossed 5/8" Baby stud can neatly mount in a grip head, c-stand, or gaffer grip for offering multi-positions. Metal adjustable lever handle is designed for a specific handle position is desired. Weight: 300 g (0.66 lbs)



KCP-381 **Off-Set Female Mounting Plate Adapter - 5/8"**
The welded steel with chrome plated off-center adpater offers the excellent balance for the weight of fluorescent light on the center of a light stand.

KCP-724 **Wall Spreader 2” x 4”**
Designed for a background support, or an overhead beam to hanging lighting fixtures by placing cut lumber at each end. It can be used both horizontal and vertical positions.

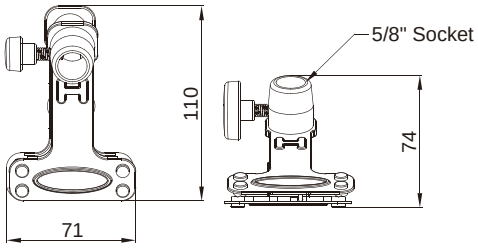
KCP-650 **Ruler Clamp**
Locks onto posts, beams and objects with spans to 56cm(22”) to support one or more lights or flags by included adapter with two 5/8” baby studs.
Max. Length: 55cm(21.6”)
Available Link two for Extend

KS-055 **Junior Multi Header**
5 x 28mm socket & 28mm pin
Length: 100cm (39.37”)

KS-056 **6 x lantern T bar**
1420mm (55.9”) long with KS-034 stud

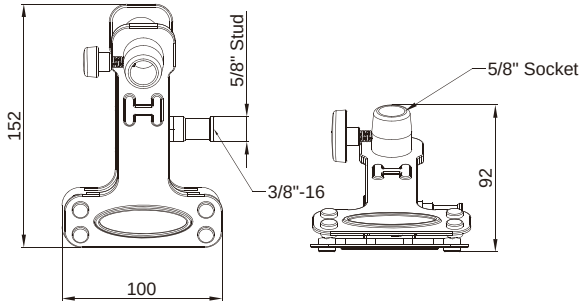
KCP-350B **Mini Ali Clamp - Black**
KCP-350P **Mini Ali Clamp - Polish**

A compact clamp with 35mm clamping range similar to the Ali clamp but smaller. One of the most useful tool for photographer, it can mount to the top of any lighting stand with 5/8” socket or stud to hold props, reflectors and background drop or clip a small light fixture for tabletops shooting.



KCP-360B **Ali Clamp - Black**
KCP-360P **Ali Clamp - Polish**

It is a handy multi-purpose steel clamp features three attachment methods: a spring-tension with rubber feet protection clamp which has a clamping range of 5-40mm, a 5/8" female socket and a 5/8” stud so it can be mount into a lighting stand, Convi Clamp, Super Viser or Grip Head to hold reflectors, gels, foam cores or flash securely in the studio and on location.



KCP-390 **Off Camera Flash Spring Clamp**

Constructed by lightweight aluminum Ali clamp and sturdy steel ball head for off camera flash light in a variety of situations. The clamp also comes with adjustable aluminum cold shoes which offers not only different size holder of flash lights but also long-lasting operation than plastic one. It's easy and convenient to attach the clamp to the plank or tube from 5~40mm with the strong spring steel equipped inside the clamp. The 16mm stud with 3/8"thread hole and the sockets are attached with the clamp can be connected with light stands and unbrella.

The holes designed for umbrella

Application

KCP-101 MAX ARM

The Max arm is specially designed for lighting, video, film or stills use. The multi-positioning arm with 90° pivoting, 360° rotating ends and a 360° elbow rotates. The center adjustable lever handle to control and lock all three movements, which allows partial loosening for safe and precise positioning of a small light fixture or camera exactly at the angle you need it. Both ends come with a ball joint 5/8”(16mm) studs; one is tapped for a 3/8” and the other is tapped for a 1/4”. It is so versatile that can be set at any awkward position or odd place.

W 1KG (2.21lbs)
max 4KG (8.8lbs)
H max 53CM (20.8inch)

6 milling flats

Teeth-device

Adjustable lever handle

Features:

1. Metal adjustable lever handle for easy making slight adjustment and can be rest to any angle. Ideal for clamping in a confined space, or a specific handle position is desired.
2. The metal-like engineering thermoplastic friction discs with teeth design offers a solid grip.
3. The storage length is 28.5cm and fully extend to 53cm with net weight 1kg only for compact & portable.
4. Both ball joint stud with multi-milling flats that can fit into baby socket fast and hold object stable.

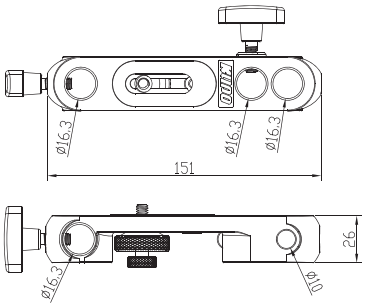
KCP-101W MAX ARM WITH WHEEL HANDLE

The function is as the same as KCP-101 Max Arm but with wheel handle which comes with rubber cover. This is standard accessory designed to KCP-101W for more comfortable and better torque while tightening the round knob especially for those users without gloves in cold working environment. This is made by silicon rubber which offers excellent weather ability for long-lasting operation.

W 1KG (2.21lbs)
max 4KG (8.8lbs)
H max 53CM (20.8inch)

KS-CB01 **CAMERA BRACKET**

This Camera barkcet is designed for Max Arm. Constructed by aluminum die casting which makes it very lightweight and durable. In addition to a standard 1/4-20 inch thread mount for a small camera, it also comes with a 1/4" to 3/8" adaptor to meet different size of thread mount. Meanwhile, there are four 3/8" female sockets availble on the bracket that can be connected two max arms from each side gives the most stable. The 7mm female socket is also built for the need of the umbrella reflector.



Steadiest support w/ two arms

KS-CB02 **Quick Release Camera Plate**

The quick release plate is easy to set up and works great offering the ability to quickly move from tripod to hand held photography. Safety lock is also equipped to prevent the quick release from inadvertantly opening. The standard 3/8"-16 thread is tapped on the bottom and a 1/4"-20 reducer bushing is attached makes it compatible with flash brackets, tripods, light stands, Convi clamps, etc.

KS-039 **Adjustable Cold Shoe Mount**

It's constructed by lightweight and durable aluminum providing a secure mounting option for virtually any type of shoe-mounted device - radio slaves, speedlights, light meters, etc. It also comes with spring-tensioned adjustment knob accepts to ensure strength and a secure fit to almost any flat foot of flash. Standard 1/4"-20 mounting thread is tapped on the bottom for quickly and easily attach to flash brackets, tripods, light stands, Convi clamps, etc.

KS-041 **Hot Shoe Adapter 3/8" - 1/4'' W/ Barrel Adapter**

This adapter can fit on the hot shoe of most cameras. It terminates with a 3/8'' to 1/4'' threaded stud and is used as a Monitor Bracket or anything else that has a 1/4'' -20 receiver. Two large knurled locking nuts are quipped for easy adjustment of the tension. It comes with a 1/4'' -20 double female barrel adapter as the standard accessory that makes the 1/4'' -20 receiver is available.

KCP-101CB **Max Arm w/ Camera Bracket**
This is specially-designed articulated arm with a camera plate and ideal for mounting a camera or a camcorder exactly at the position you desire. Works perfectly with Convi. clamp KCP-700 by baby stud with 6 milled flats on the neck of the Max arm.

KCP-101QW **Max Arm w/Quick Release Plate**
A variable friction Max arm equipped with a quick release camera plate for precise position. Works perfectly with Convi clamp KCP-700 or any clamps with 5/8'' baby receiver.

KCP-101K **Max Arm Kit**
The Same fuction as KCP-101CB but with more standard accessories included Convi clamp KCP-710, Max Arm KCP-101, Camera Bracket KS-CB01 and backlite base 013BS.

Applications of Max Arm

With backlite base stand for camera

With two Max arms on the bike for camera

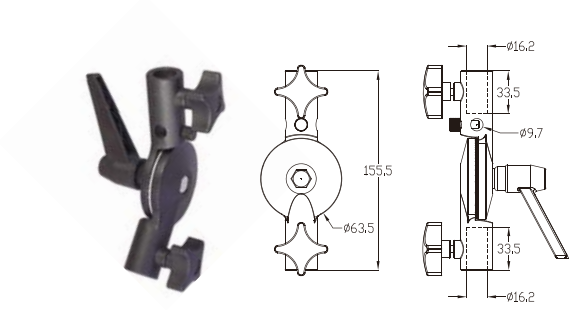
With convi. clamp for camera

With suction cup for DV

With convi clamp for lighting

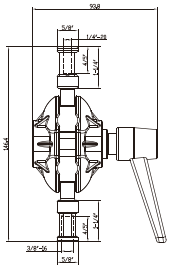
With convi. clamp for camera

KS-101 **Umbrella Swivel Bracket**
Umbrella Swivel Bracket is made of aluminum and with 5/8" (16mm) receiver in both ends that can connect stands or accessories with baby pin to make aiming the light or flash easy with swivel design. The locking umbrella socket also accepts umbrella shafts up to 3/8" diameter.



KS-102
Same function as KS-101 but with KS-014R & KS-015R which are two removable, reversible 5/8''studs with 1/4"-20 and 3/8'' threads; and can be mounted various attachments like umbrella's, soft boxes, strobe's and speedlites.

KS-103 **Versatile Swivel Adapter**
Versatile Swivel Adapter comes with a two ball joint 5/8'' (16mm) stud:, one is tapped for 3/8'' and the other is for 1/4'' , offers you to clamp onto a support at odd angles with stands or suction cups. Both ball joint stud alsodesigned to fit into baby socket likes convi. clamp, super viser and hold object stable.



KS-104
Versatile Swivel Adapter w/ KS-CB01
Same function as KS-103 but with Camera bracket.

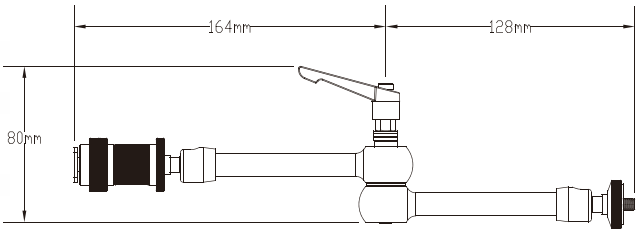
KS-105
Versatile Swivel Adapter w/ KS-CB02.
Sames function as KS-103 but with Quick release camera plate.

Application

KCP-102 VISION ARM

The Kupo Vision Arm is functional, reliable, and durable articulated arm designed for a monitor or light accessories. Two arms and two swivel ball-joint attachments are locked solidly by rotate the single central lever which is adjustable help easy change the position of lever for your desired position. In addition the hot shoe adapter 3/8'' -1/4'' w/ barrel adapter is equipped that easily allows you to connect together two things with different thread sizes

Weight : 300G (0.65 lbs)
Length: 25cm (10 inch)

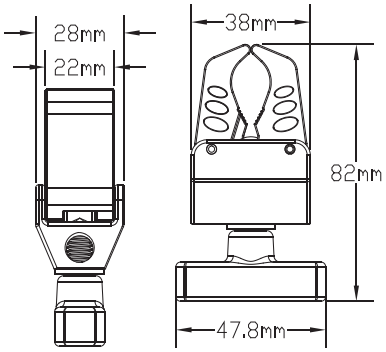


KCP-730B PINCER CLAMP

Pincer clamp is the mini version of Convi clamp with super lightweight and compact size advantage. The pad on the jaw provide stronger grip on the round, square and flat shapes. With 1/4" and 3/8" female sockets, it is an ideal for any lighting accessory.

Weight：130 g
Material Aluminum
Fit tube size：13~35mm

Loading weight：5.5KG
Attachment 1/4'' &3/8''
Fit flat surface size：5~20mm



Features:
1. Two jaws are aluminum extrusion makes it robust and durable.
2. Ergonomic aluminum casting knob offers better grip.
3. 1/4'' and 3/8'' female sockets can be used simultaneously without space limitation.
4. Inside steel spring keeps the jaws move smoothly while twisting the knob.

Application

With KS-017 Universal 16mm Stud

With KS-062 16mm Socket

With KCP-730B Vision Arm

Kupo Pumping Suction Cup offers a temporary solid light mounting solution for smooth, nonporous surfaces. Each Kupo Suction cup comes with 5/8" baby pin or 3/8"thread bolt to allow you to mount small lights or accessories on windows, mirrors, automobiles, boats and any smooth, nonporous surfaces. Because of excellent rubber material with silicon, it can be used at temperatures from -12 degree to 49 degree C. It's pumping in any adverse shooting circumstances.

KSC-01
9" Suction Cup with 16mm Baby Pin Position the cup pump the handle until the red line is hidden. Check the red line indicator on the plunger frequently. And re-pump it without removing when you find the red line out for safety.
Max. Loading: 10KG (22lbs)
Weight: 1.05KG (2.3lbs)

KSC-02
Double Suction Cup with 16mm Baby Pin Position the cup, push down the handle to remove air from between the rubber pad and the contact surface. Pull the handle vertically and remove the cup when not in use.
Max. Loading: 15KG (33.1lbs)
Weight: 1.7KG (3.7lbs)

KSC-03
6" pumping suction cup with 3/8" -16 thread x 5/8" length stud for use with ball head camera mounts .
(Supplied with pad protector)
Max. loading: 32KG(70 lbs)
Weight:0.45 KG(1 lbs)

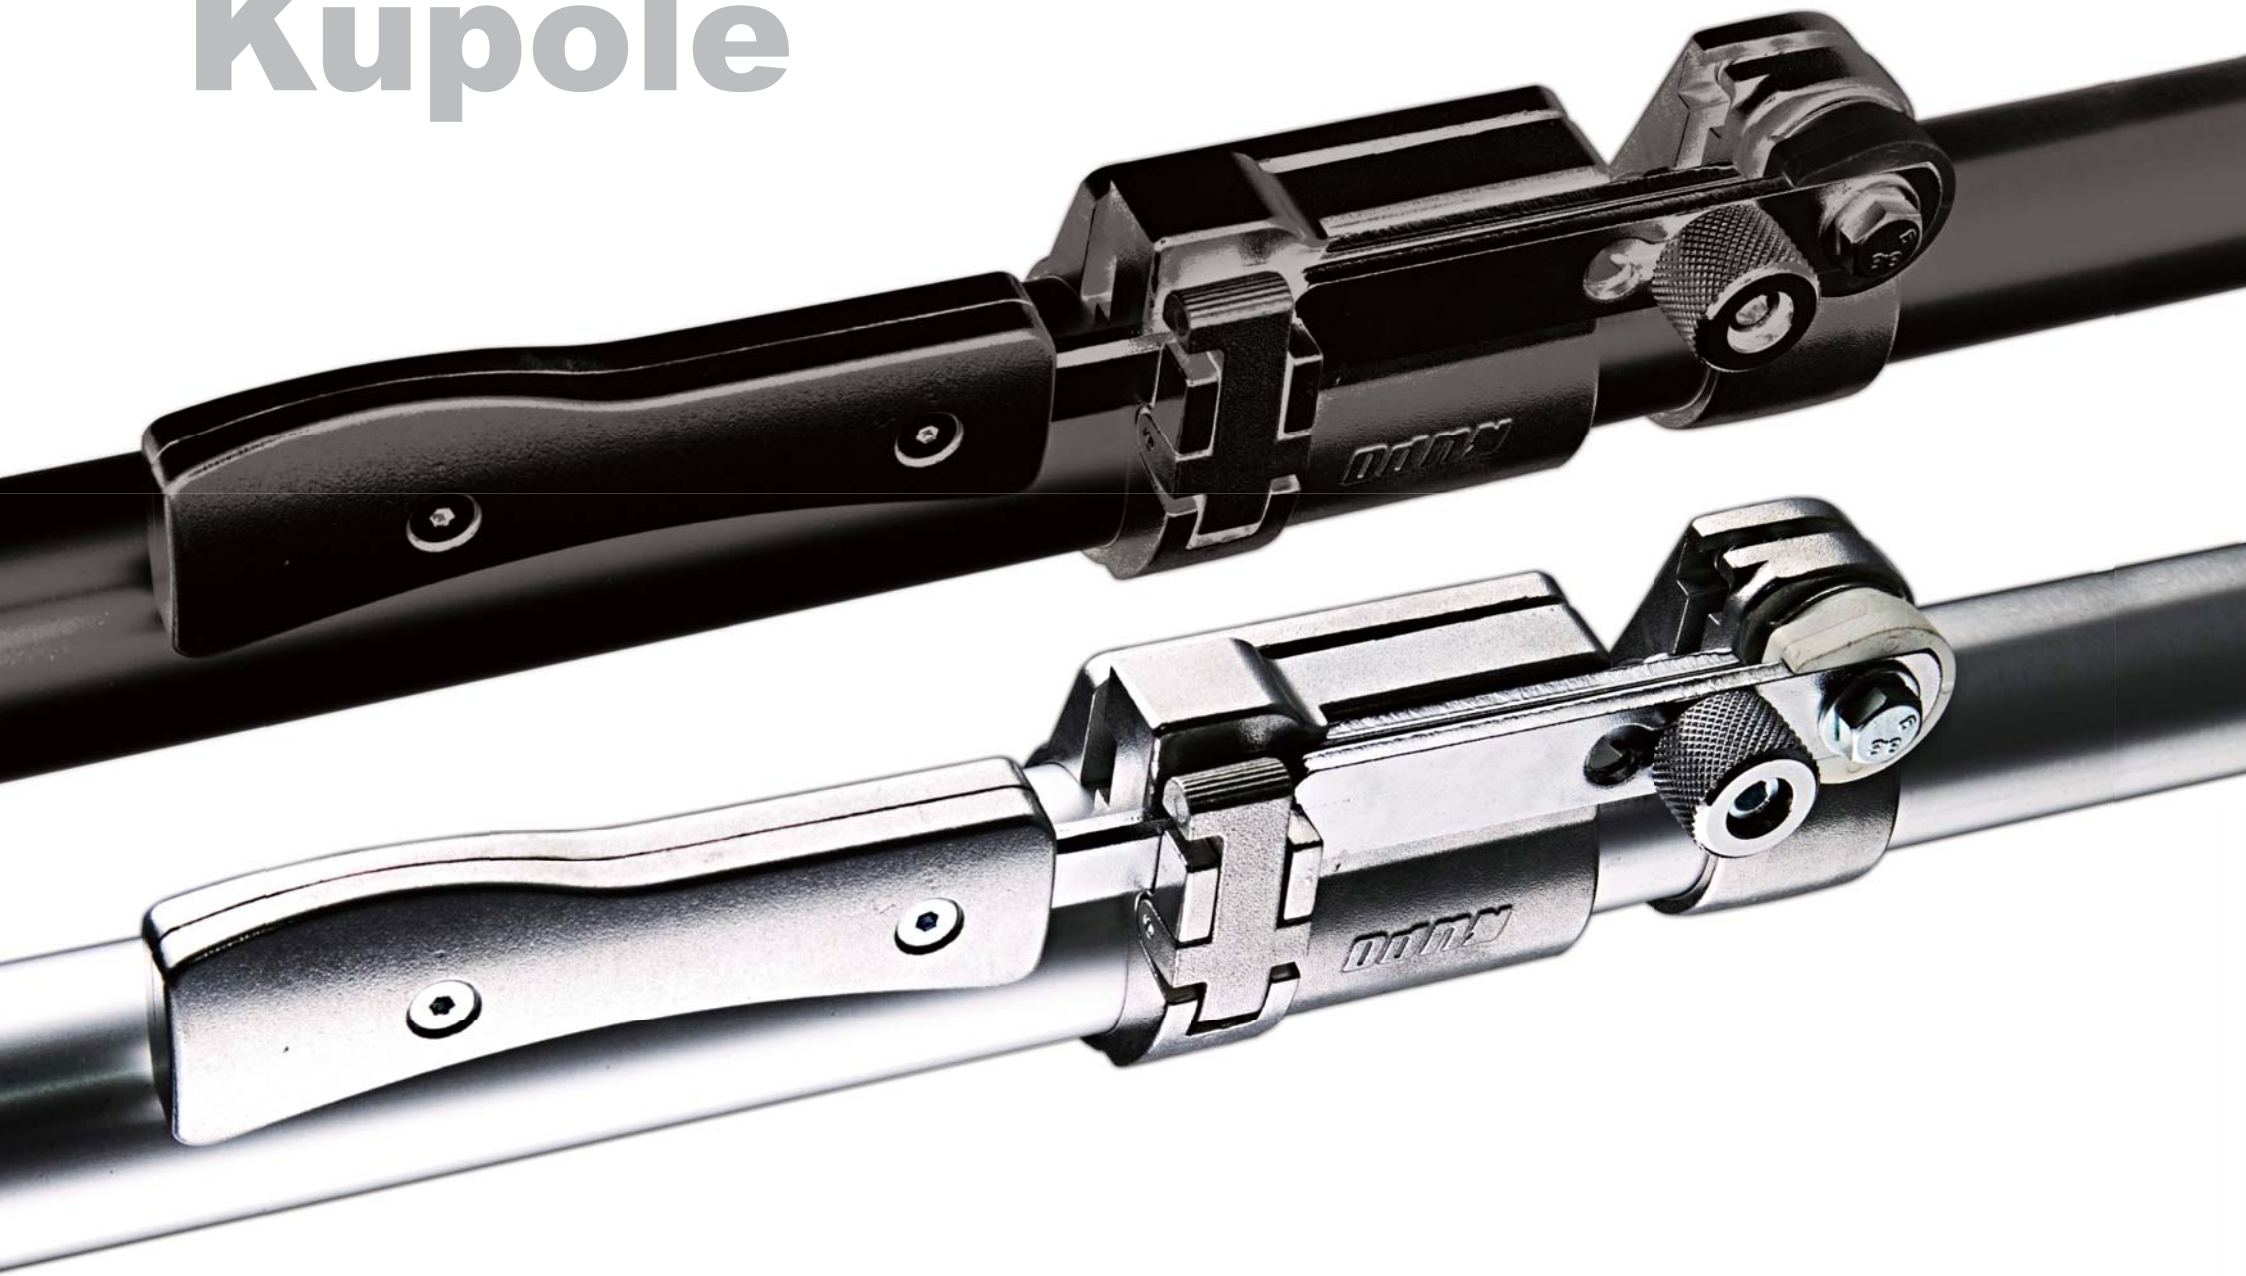
KSC-04
6" pumping suction cup with fixed baby pin (Supplied with pad protector)
Max. loading: 32KG(70 lbs)
Weight:0.47KG(1 .1lbs)

KSC-05
6" pumping suction cup with swiveling adapter, KS-103, which is detachable. Both ends of adapter come with a ball joint 5/8" (16mm stud); tapped for 3/8" and 1/4" . With pad protector,
Max. loading: 4.5KG(9 lbs)
Weight:0.7KG(1.54 lbs)

KSC-06
6" pumping suction cup with swivel baby pin which is fixed with cup
(Supplied with pad protector)
Max. loading: 20KG(44 lbs)
Weight:1 KG(2.2lbs)

Application

Kupole



KUPOLE is strong, durable and cool adjustable lighting pole system. The unique locking device made in casting provides the pressure and locking system for holding the Kupole in place.

- Deluxe aluminum casting handle incorporates a safety lock.
- It can be used in vertical or horizontal support of lighting or backdrop.
- 2 adjustable settings for a variable tension adjustment.
- Manufacturing in pole dia.45mm and 40mm and three overlapping size up to 370cm.
- Both silver anodized and black powder coat finish available.

KP-SP05 Black Bottom Rubber Cover

KD-B126P Kupole Base

The Kupole base is designed to convert Kupole to conventional stand whenever the ceiling is higher than 12' (3.6M) or a free-standing background is needed. The center base accepts 45mm diameter tubes. Leg diameter: 22mm with 49.6(126cm) footprint. Just remove the bottom rubber cover, silde on tripod base then replace the cover.

With Kupole

KD-R48P Kupole Disc Base

Thsi is a sturdy 19" (48.3 cm) diameter and weight 12KG round metal base for Kupole. Use them for a clean streamlined look and ideal for visual merchandizing or displays.

With Kupole

KD-C50P Kupole Suspended Ceiling Adapter

Designed for connnecting Kupole from a drop ceiling frame with the equipped adapter.

KD-T50P Kupole Adapter

weight: 0.55KG

Fits tube size from 48-51mm OD.

It connects the Kupole with the Truss

Assembling Kupo background support accessories with Kuploes and Convi. clamps can easily create your own background system for shooting without any tool. It is very simple, reliable and flexible to meet you requirements of paper roll background system in the studio or on location shooting.

KP-DS01 **Background Paper Drive set**
Kupo Background paper drive set is a pair of adapters that expand and lock securely inside the core of roll of seamless paper. One adapter has a plastic cog that accepts a plastic drive chain so that you can adjust the length of your background comfortably and a tension control so the background doesn' t unroll by itself due to gravity. The flexibility of this adapter can fit to 46mm~78mm dia. tube size. (The plastic chain and chain weight are included)

KP-KS01 **Single hooks**
The hook set is designed for paper drive set holder which connects with a pair of Convi clamps, and a set of paper drive set. (Set for two)

KP-KS02 **Triple hooks**
The same function as KP-KS01 but can accept three paper drive sets to support three rolls of seamless paper. It can also be mounted on a wall with screws or bolted to a pair of Convi Clamps.
(Set for two)

KP-KS03B **Plastic chain w/ 3.5M length (Black)**
KP-KS03W **Plastic chain w/3.5M length (White)**
KP-KS03O **Plastic chain w/ 3.5M length (Orange)**
KP-KS03BL **Plastic chain w/ 3.5M length (Blue)**
Plastic Background Driving Set Chain is a replacement plastic chain with 3.5M (137'') length for the background paper Drive Set. Different colors of chains are designed for easy color identification of different color paper rolls which are used on the Triple hooks. There are four colors included Black, White, Orange and Blue available.

KP-KS03O

KP-KS03BL

KP-KS04 Chain weight
This is a replacement Chian Weight to keep the plastic chain straight toward the ground. (Black)

Chain weight with chain

KP-X245P Aluminum tube
The Background Aluminum Tube is equipped with an aluminum solid core which allows you to assemble two sections of the tube quickly and securely with Allen key. The aluminum tube is designed for sliding into the seamless paper roll to connect between paper drive set and paper roll to prevent paper roll being bent because of gravity. The tube size is dia.50mm with 2.75M (9’) length.

Tube in the paper roll

KP-KS05 Background baby hook
The hook is built by sturdy steel with anti-reflection black painting. This is designed to attach background paper drive set on the hook and easily connect a 16mm (5/8”) stud on the top riser of a light stand. The unique design of 28mm OD can be also inserted into 28mm receiver after removing the knobs for the universal top head. In addition to the background paper drive set, the V shape hook can also accept the pipe size from 19~25 mm as the axis for supporting the paper roll.

in 16mm baby stud

in 28mm junior receiver

KS-300 Tethermate

Tethermate is specially designed for professional photographer with a portable and temporary plate mounted on the stand for '' Tethered Shooting'' to connect DSLR with lap top. It features an adapter beneath the plate with two 5/8'' (16mm) baby receivers and 1/4'' & 3/8'' female thread which can fit to stands, tripods, Convi. Clamp, Max arm in seconds. With the advantages of lightweight aluminum material and the compact size 17.5'' X 11.7'' (445mmX 297mm), Tethermate is the ideal tethering plate for studio and location shooting especial for traveling instead of special dedicated base.

With light stand With tripod

Features:

1.Two baby receivers are designed for horizontal and vertical application.
2.Velcro is equipped through the holes for fastening any objects on the plate securely.
3.Round edge treatment of the plate for better user friendly.

Application:

With KCP-600 Super Viser

With KCP-101 Max Arm & KCP-700 Convi Clamp

With KCP-310 EZ Grip Finger

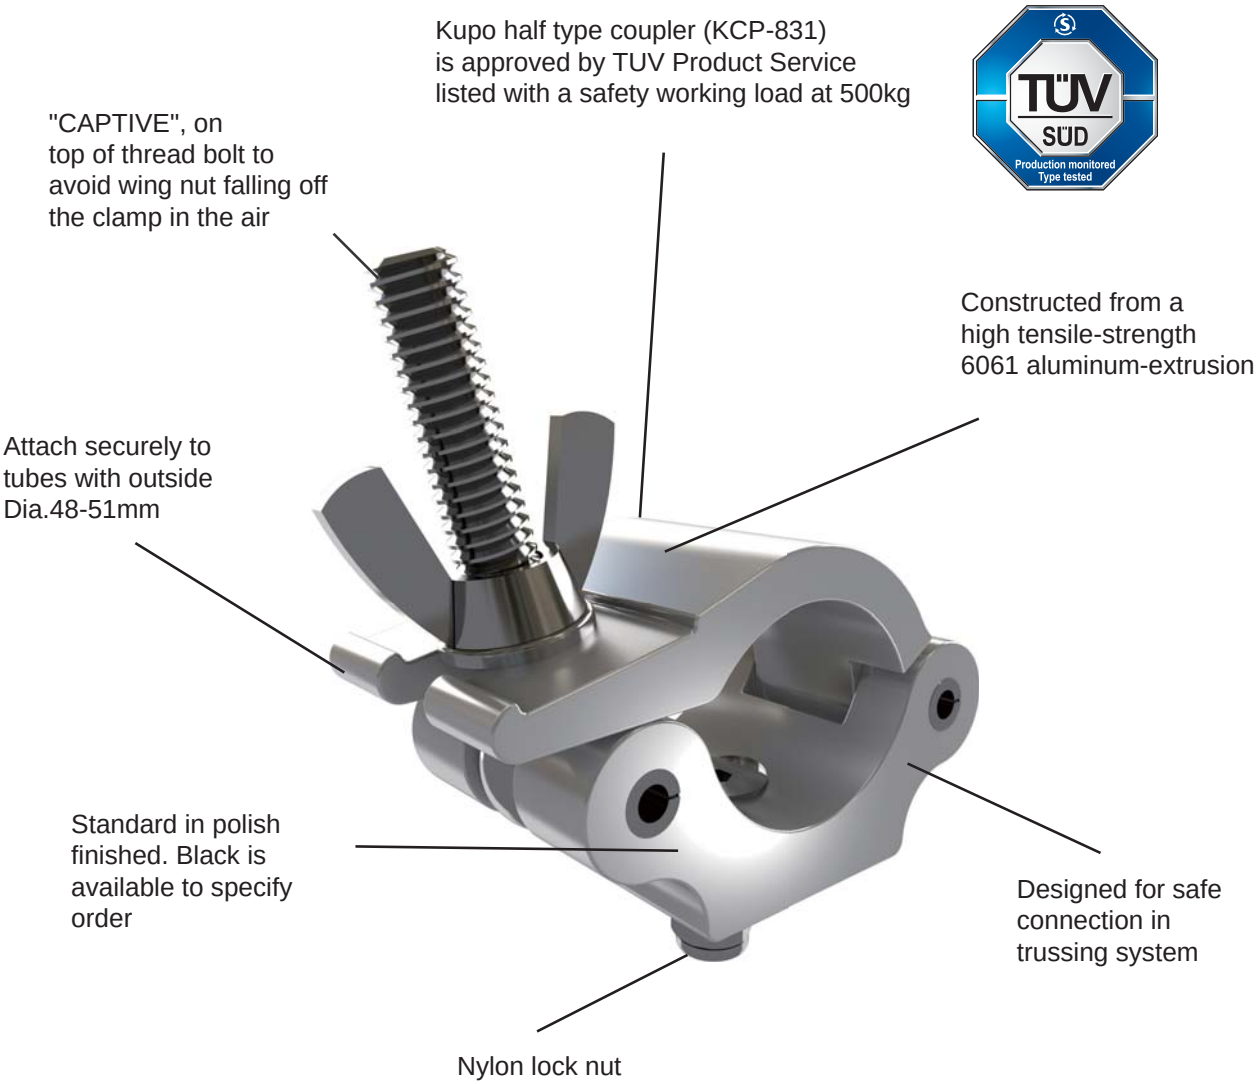
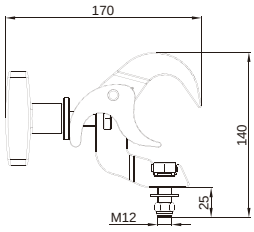
Custom Designs Welcome!

Lightweight & low profile KUPO professional couplers are constructed from high tensile aluminum extrusion and have been developed for installations where load capacities of up to 500KG are required. The KUPO professional couplers combine strength and durability with a high degree of safety. The couplers are designed to fit tubes with diameter between 48mm-51mm. Most have been tested and certified with TUV approval for a safe working load of 500kg. The standard finish is polished. Custom color or logo is upon request.



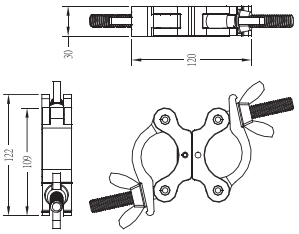
KCP-810 ARCH COUPLER

- Constructed from aluminum gravity casting.
- Big handle for easily using without obstructive bolt to palm and the brace.
- Counter sunk for M12/M10 Bolt & lock nut
- Fits tube size from 38-51mm OD.
- Working Load: 150KG (330lbs)
- Weight: 0.68KG (1.5lbs)



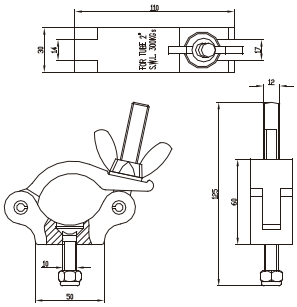
KCP-820 SLIM TYPE SWIVEL COUPLER

- Fits tube size from 48-51mm OD.
- Allow a full 360 degree of movement
- Drift pin for fixed in a 90 degree configuration
- Weight: 0.70KG (1.54lbs)
- Working load: 300KG (660lbs)



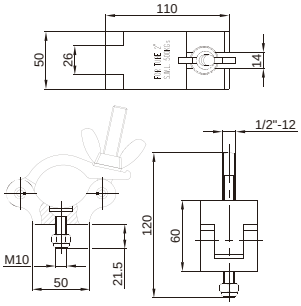
KCP-830 SLIM TYPE HALF COUPLER

- Fits tube size from 48-51mm OD.
- Square counter sunk
- Weight: 0.3KG (0.66lbs)
- Working load: 300KG (660lbs)



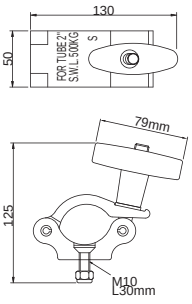
KCP-831 HALF COUPLER

- With a reated M10 x 28 bolt & lock nut
- Suitable for use with large lighting fixture
- Weight: 0.55KG (1.21lbs)
- Working load: 500KG (1100lbs)



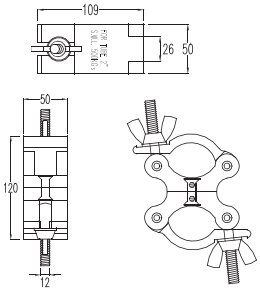
KCP-831-T HALF COUPLER W/T-HANDLE
KCP-831B-T BLACK FINISH

- With counter sunk for M10 x 28 bolt & lock nut
- Suitable for use with large lighting fixture
- Weight: 0.55KG (1.21lbs)
- Working load: 500KG (1100lbs)



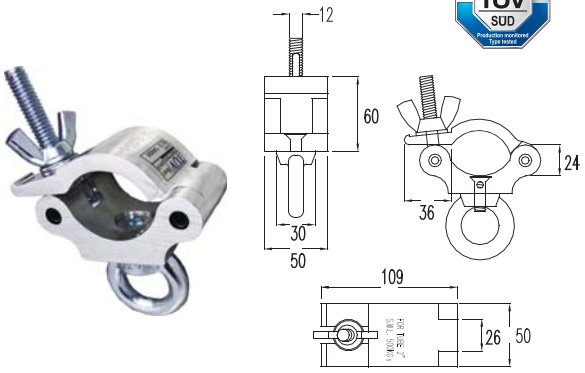
KCP-832 SWIVEL COUPLER

- Fits tube size from 48-51mm OD.
- Allow a full 360 degree of movement
- Drift pin for fixed in a 90 degree configuration
- Weight: 1.20KG (2.64lbs)
- Working load: 500KG (1100lbs)



KCP-833 EYE RING COUPLER

- Incorporate a freely rotating M12 eye ring
- Weight: 0.65KG (1.43lbs)
- Working load: 500KG (1100lbs)

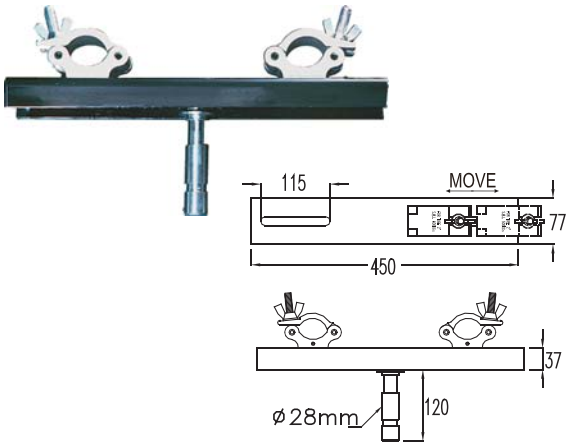


KCP-834 SPIGOT COUPLER

- Incorporate a 28mm (1-1/8") TV spigot
- Weight: 0.75KG (1.65lbs)
- Working load: 500KG (1100lbs)

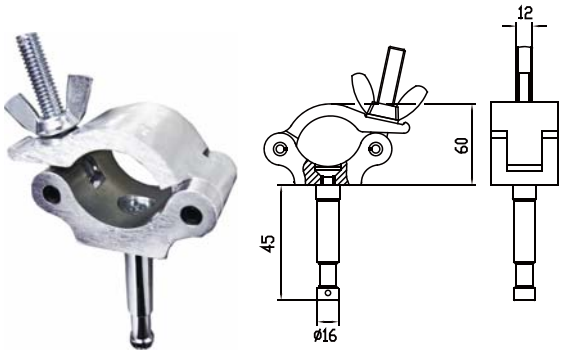
KCP-835 TRUSS COUPLER

- Suitable for all triangular/square truss sections
- Weight: 3.30KG (7.26lbs)



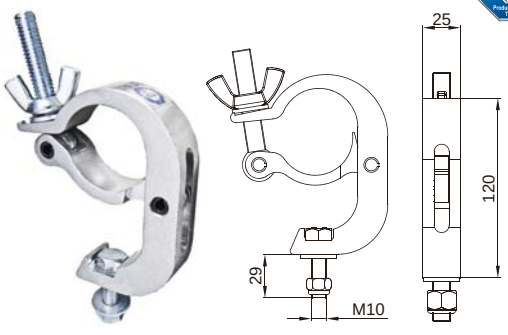
KCP-836 STUD COUPLER

- Incorporatea 16mm (5/8") stud
- Weight: 0.62KG (1.4lbs)



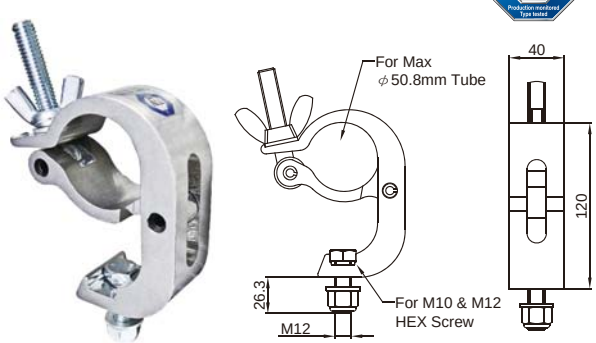
KCP-828 SLIM TYPE HANDCUFF CLAMP

- Save time and effort in hanging fixture
- Mounted with M10 bolt & lock nut
- Weight: 0.45KG (0.99lbs)
- Working load: 100KG (220lbs)



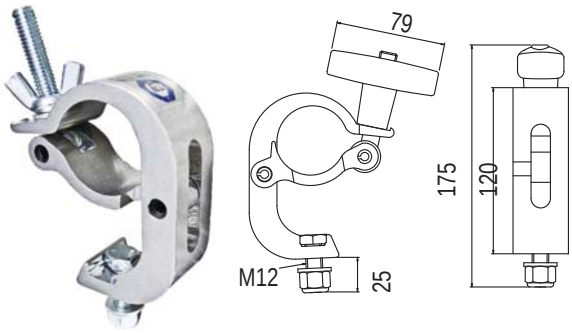
KCP-838 HANDCUFF CLAMP

- Save time and effort in hanging fixture
- Double level's counter sunk for M10 or M12 hex.
- head bolt
- Weight: 0.85KG (1.87lbs)
- Working load: 200KG (440lbs)



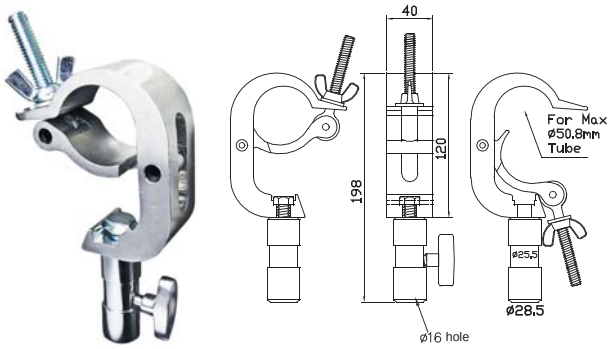
KCP-838-T HANDCUFF CLAMP W/T-HANDLE
KCP-838B-T BLACK COLOR

- ☑ Weight: 0.65KG (1.43lbs)
- ☑ Working load: 200KG (440lbs)



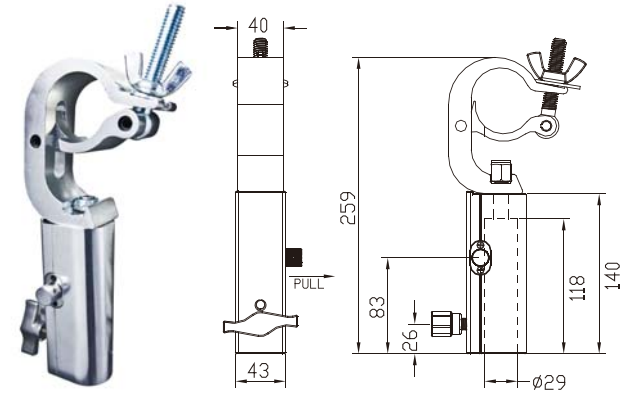
KCP-839 HANDCUFF CLAMP W/STUD

- ☑ With KS-090 yoke to stand adaptor 28mm stud 16mm socket
- ☑ Working load: 200KG (440lbs)



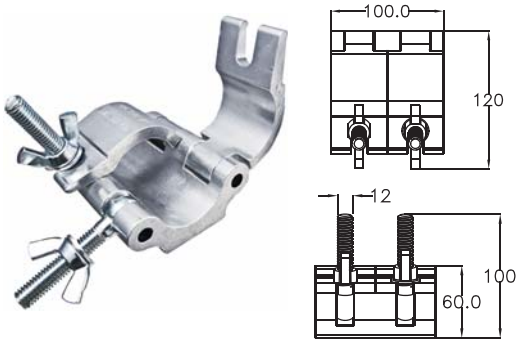
KCP-840P HANDCUFF CLAMP W/28MM SOCKET

- ☑ Fits tube 48~51mmOD. Supplied complete with 29mm socket with the safety lock system
- ☑ Weight: 1.05KG (2.31lbs)
- ☑ Working Load: 200KG (440lbs)



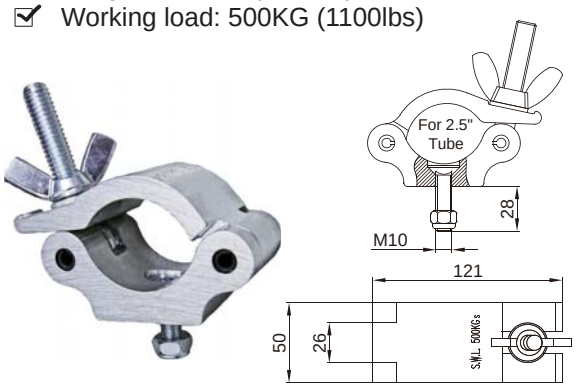
KCP-847 TUBE/ BARREL JOINER

- ☑ For quickly connectiong two tubes together end to end
- ☑ Working load: 300KG (660lbs)



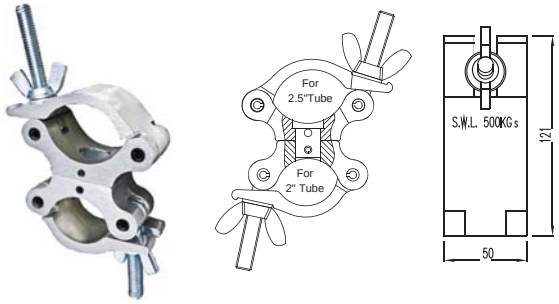
KCP-851 MIGHTY COUPLER

- ☑ For 2.5” (60mm) truss system
- ☑ Supplied complete with a rated M10 x 28 bolt & lock nut, suitable for use w/ large lighting fixtures
- ☑ Weight: 0.60KG (1.32lbs)
- ☑ Working load: 500KG (1100lbs)



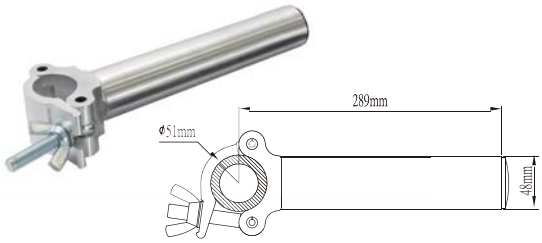
KCP-857 MIGHTY HALF SWIVEL COUPLER

- ☑ For 2.5” (60mm) to 2” (50mm) truss system
- ☑ Easily fixed in a 90° configuration w/drift pin
- ☑ Allowing a full 360° of movement
- ☑ Weight: 1.20KG (2.64lbs)
- ☑ Working load: 500KG (1100lbs)



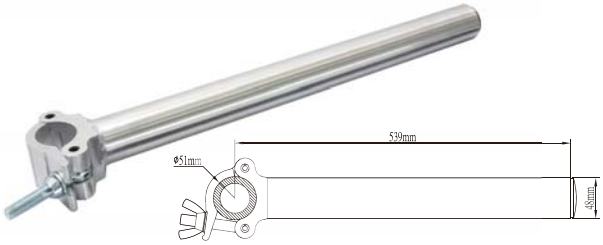
KCP-801 250mm ARM COUPLER

- Half coupler weld with OD51mm aluminum alloy tube, for versatile applications
- KCP-801 Working load: 80KG (176lbs)



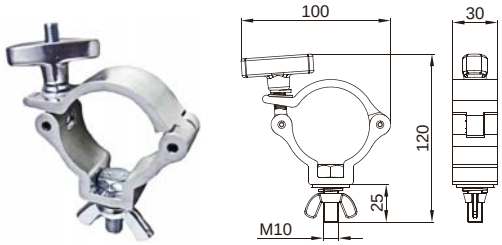
KCP-802 500mm ARM COUPLER

- Half coupler weld with OD51mm aluminum alloy tube, for versatile applications
- KCP-802 Working load: 40KG (88lbs)



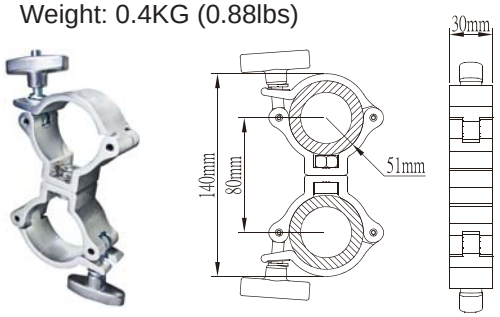
KCP-901 BURGER COUPLER

- Light-Weight coupler for small fittings
- For 2” truss system
- Coming with T-Handle
- Black and silver available
- Working load: 75KG (165lbs)
- Weight: 0.2KG (0.44lbs)



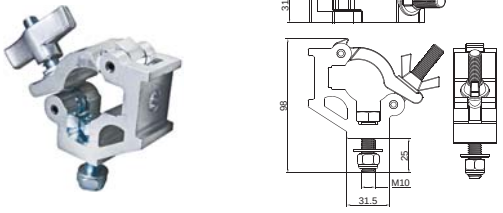
KCP-902 BURGER COUPLER SWIVEL TYPE

- For 2” truss system
- Coming with T-Handle
- Black and silver available
- Working load: 75KG (165lbs)
- Weight: 0.4KG (0.88lbs)



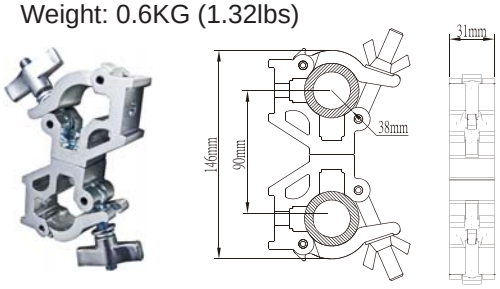
KCP-860 NUGGET COUPLER

- Fits the tube diameter 1.25~1.50”
- Double level’s counter sunk for M10 or 3/8” hex screw
- Unique window for safety wire
- Working Load: 120KG (264lbs)
- Weight: 0.3KG (0.66lbs)



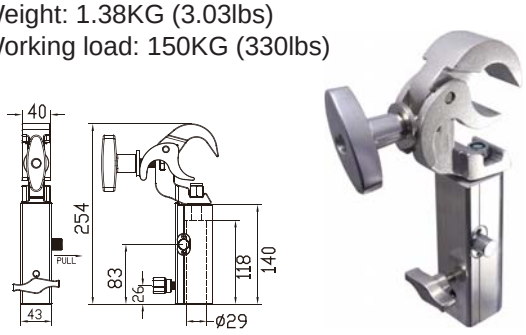
KCP-862 NUGGET COUPLER SWIVEL TYPE

- Fits the tube diameter 1.25~1.50”
- Coming with T-handle
- 3/8” hex screw
- Working Load: 120KG (264lbs)
- Weight: 0.6KG (1.32lbs)



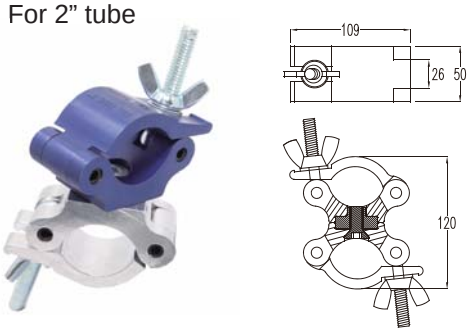
KCP-841P ARCH COUPLER WITH 28MM SOCKET

- Fits tube 48~51mm OD. Supplied complete with 29mm socket with pull-to-release safety lock
- Weight: 1.38KG (3.03lbs)
- Working load: 150KG (330lbs)



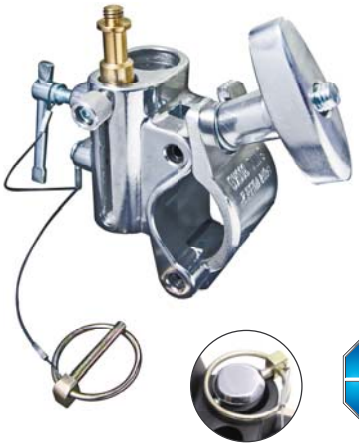
KCP-873 45-DEGREE COUPLER

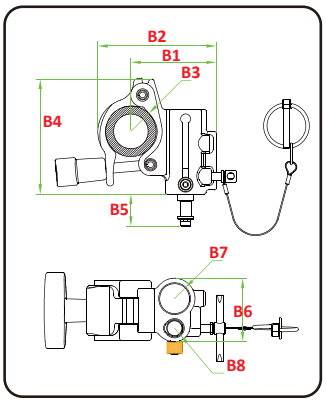
- Swivel for every 45°
- Tighten or release to turn through hex tool
- No drift pin required
- For 2” tube



TV coupler is made to hook up the lighting equipment coming with a 16mm receiver or 28 mm spigot. It is equipped with a “safety linchpin” , a security device allowing user to preset it in the pin hole of 28 mm spigot before completely tightening and keeps cooupler from unexpected drop-off.

KCP-844 Sliver
KCP-844B Black



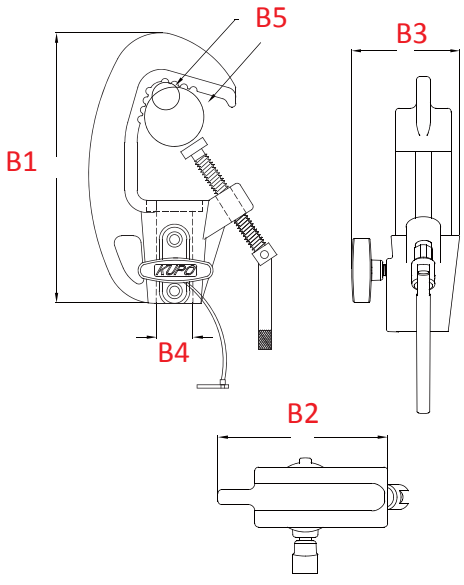


TV Coupler	
SWL	300 KG
B1	86 mm
B2	119 mm
B3	Ø 48-51 mm
B4	115 mm
B5	32 mm
B6	64 mm
B7	Ø 28 mm
B8	Ø 16 mm
Weight	0.90 KG

Features:
1. Constructed by rugged aluminum die-casting with TUV Approval.
2. With a 28 mm junior socket for luminaire or telescopic hanger.
3. The 3/8” threaded 16 mm baby stud is also available and alternated with 16 mm baby socket by spring latch bolt for lightweight luminaire and accessories.
4. Hook strut of top opening section limits the open pace that offers assistance to rig.
5. The safety wire is bult with the clamp to ensure this essential safety aid is always on hand.
6. Linchpin is attached with the safety wire to keep it safety for pan adjustment of luminaire while the knob of clamp is loosen.

KCP-100B T.V. Clamp

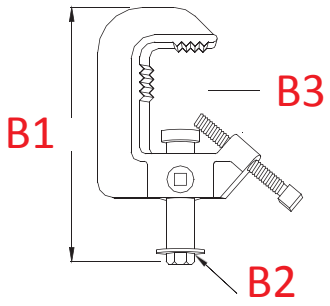
The KCP-100 T.V. Clamp is a heavy duty casting C clamp and supplied with a Tommy bar to improve grip. It terminates in a 28mm(1-1/8”) junior receiver. Collar ring on bushing for supplied safety hitch pin to pass through fixture spigot. There is a dedicated aperture in clamp body for attaching safety cable. This clamp works for diameter from 22-54mm round tube with load capacity 100kgs. It is ideal to hang all types of luminaries in T.V. studio and theaters.



SWL	100 KG
B1	220 mm
B2	120 mm
B3	90 mm
B4	Ø 29 mm
B5	Ø 22-54 mm

C-06 **Heavy Duty Iron Casting Clamp**

The old C clamp or pipe clamp is designed for most hanging applications. Intend for use from 1-1/2" to 2" O.D. iron pipe in theater. 2-1/2" long steel shaft with 1/2" -13 yoke bolt and wash. A square head pan set screw allows you to rotate the fixture. Comes in black powder coat finish.

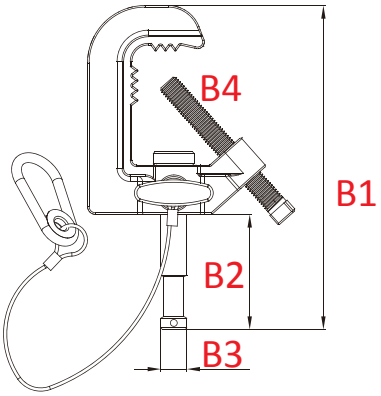


SWL	100 KG
B1	170 mm
B2	1/2"-13
B3	Ø 38-51 mm

Note: when using c-clamps care must be taken do not over-tight the pipe bolt which affixes the clamp to the batten. If this bolt is over-tighten, it can easily dimple or "drill" into the batten seriously compromising the strength of the batten. A finger tight plus half turn with the wrench is all that required.

C-16 **Baby Pipe Clamp**

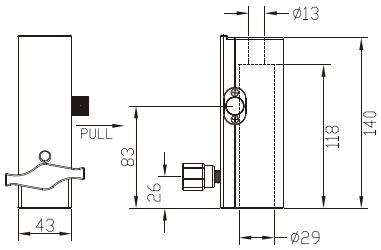
It is identical old C clamp but terminated with 16mm baby stud. The collar on the top of baby pin keeps it safety for pan adjustment of luminaries while the knob of clamp is loosened. The safety wire is also built with the clamp to ensure this essential safety aid is always on hand.



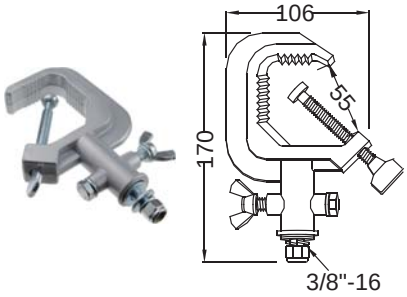
SWL	100 KG
B1	197 mm
B2	70 mm
B3	Ø 16 mm
B4	Ø 38-51 mm

KS-089 **UNIVERSAL TV QUICK RECEIVER**

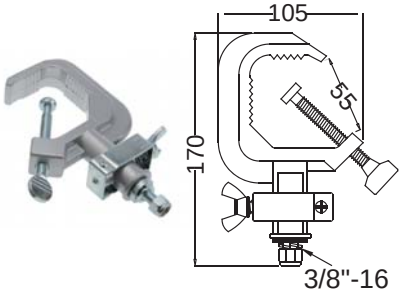
- ☑ An aluminum quick receiver which accepts and holds captive 28mm DIN or Euro spigot
- ☑ Affixing C clamp or stage coupler atop turns to be a professional TV clamp (C clamp or stage coupler is optional); assembly through long hex or wrench socket driver
- ☑ Allowing 360° rotation



C-05/B **Hook Clamp**
Aluminum alloy/Black
Working load: 150KG (330.7lbs)

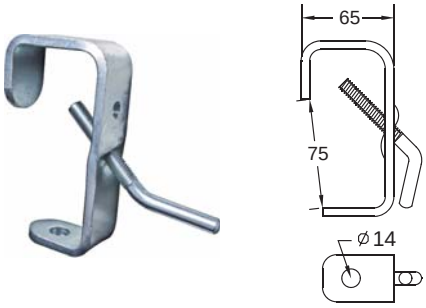


C-05QP **Hook Clamp**
Quick Release auminum alloy
Working load: 150KG (330.7lbs)

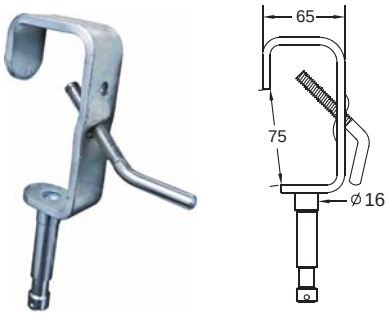


KS-013
Ø 17mm spigot wi/ washer & lock nut for C-05 family.

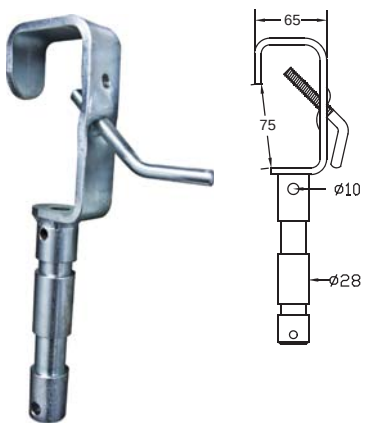
KCP-702 **Stage Clamp with 14mm Hole**



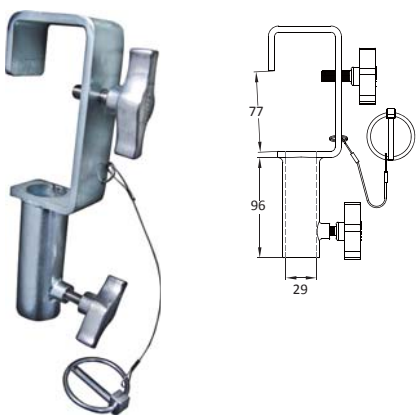
KCP-703 **Stage Clamp with 16mm Stud**



KCP-704 **Stage Clamp with 28mm Stud**



KCP-705 **Stage Clamp with 29mm Socket**

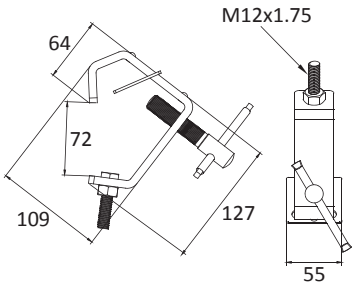


C-12 Heavy Duty Steel G Clamp

C-12 is made of 8mm x 38mm rolled steel with protective tab. A Tommy bar is included to provide a beter leverage to tighten the pipe. It is ideal for hanging big lighting fixture like moving head and scanner. Fits tube size from 40-60mm. It is supplied with a welded M12 yoke bolt and nut. Standard finish in galvanized.

C-12 Silver

C-12B Black



WS-140 WINGNUT MULTI-SPANNER

Its application is tighten large & small wingnut without damage. Fits M12, M10 & M8 Hex. bolts. Carbon steel with heat treatment. Easy to carry (it can be hang on belt by the hook) and nice looking. The features are impressed & practical the cost is economic and benefitial.

- 3 x Hex Bolt
- 2 x WingNut
- 2 x SetScrew
- 1 x Key Chain
- 1 x Bottle Opener
- 1 x Flat Screw Driver

Application

Kupo safety wire is fabricated of galvanized steel wire, and constructed in accordance with DIN3055 and DIN3060. It is used as secondary bonding for rigging, lighting and other equipments to truss or stand, rendering a secondary flexible coupling in additional to regular fixture. Standard finish is metallic silver and black coating is available upon request.

K-LOK

Features for K-LOK Single Pole Connector :

Kupo manufactures the highest quality single pole connectors available. Kupo cam-type connector has a superior non-conductive retaining screw that passed through the entire contact for superior durability. These single pole connectors have been designedwith ease of assembly and disassembly in mind, no special tools are required. K-LOK series connectors mate with competitive CAM products.

(compatible with major brands of power connectors)

To fit smaller sizes of cable, the copper contact can be made with two smaller dimensions of cable-accessing hole upon request as following:

1. Dia. 16.90 mm (Large hole; standard K-LOK)
2. Dia. 14.60mm (Medium hole; upon request)
3. Dia. 10.40mm (Small hole; upon request)

K-LOK Dust Cover

Weatherproof snap back protective cover to fit all compatible brands of 400A cam type receptacles. Standard frame dimension allows retrofit existing application easily. The gasket offers a NEMA 3R rated environmental seal that provides a protection against falling rain, dust or frost, and also provides a safe way to cover exposed metal, while keeping the weather out when the receptacle is not use. Kupo Dust Cover is made from a high impact resistant, flame retardant ABS material and corrosion resistant stainless steel hardware. Five colors available for phase identification.

KUPO 150A Single Pole Connector (Mini-Cam)
Mini-Cam is a series of 150 Amp light duty single pole connector in addition to heavy duty 400 Amp ones. Like its heavy duty family members, Mini-Cam is also constructed of Santonprene, possessing a superior performance in insulation. With enhanced features on safety designs and wider range of cable accommodation, Mini-Cam is the ideal and reliable connector for your own job.

KL-150LMGY	KL-150LFGY	Gray

The tension hole at rear side of split contact retains the contact from too much pressed, so as to prevent the loose mating after several time of uses.

Features:
- The boot is made of UV-resistance Santonprene, providing greater protection. Much safer and more durable.
- There comes a POM (Polyformaldehyde) ring in between boot and contact, fully encompassing the copper contact to make the first layer of insulation. The profile of this POM ring is 2 times longer than the others as to provide better insulation.
- Wider range of cable accommodation from #8 AWG to #2 AWG (outside diameter up to 13.60mm); those positions are clearly engraved on the boot for easy identification.
- Applied with same design as 400A ones, the contact comes with double set screws so the cable can be firmly engaged in the position.
- Largely-ribbed housing provides comfortable and secure gripping; prolonged body helps user to hold it firmly.
- Comes with two different length of set screw for maximum flexibility of matching different size of cable.
- Wire stripping scale is shown on the boot for user easy check-up while assembling the cable; outstanding arrow point provides convenient mark for mating the connectors.
- Compatible with other brands of same 150A rated connectors.
- UL/cUL certificated

Panel Mount Type
- The design of KUPO Panel Mount baby cam is same as Advanced Device' s.
- The instruction on the backside of body.
- The thread bolt is 19mm.

B&B stands for Blue lid and Black body, is specially designed for entertainment industry, for 250 voltage rating identification and antireflection with matt black finish. That makes the connectors harmonized with the background during a presentation of a production. The professional connector also has CE approval and IP 44 rating to meet the safety standard. It can work stable in low and high temperature indoor or outdoor environment; and widely applied to factor power distribution system, machinery, building site, stage equipments etc.

More Features:
1. Screw-free to lock the housings by twist-lock action.
2. Easy press by needle nose of tool to unlock and twist to open.
3. Lockable cable gland for a quick and firm grip.
4. Adjustable inner gasket for different cable diameters.
5. Constructed by anti-corrosive, high dielectric shock-resistance material.

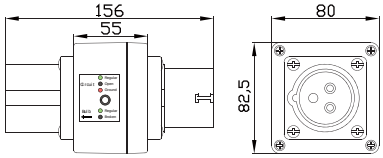
CEE TESTER

Convenient and hand-held device to carry out testing for CEE extension cable. Also capable of diagnosing the condition of lamp without taking lamp out of fixture. Built-in LED indicator showing test result.



Rubber Distribution Box

Kupo Power distribution boxes are designed from the rubber material for the body and the 1.2mm thickness steel material for the sinking front panel. The rubber material makes the power distribution box stronger. It is sturdy, durable and lightweight. The internal wiring consists 1.5mmsq silicon cable as standard. The sinking front panel for a better protection of each connector. The following is the range of power distribution boxes, other variations of power distribution boxes are available upon request.

KRB-01 **Rubber Distribution Box with Stage 3 pin connectors**

* 275mm (L) x 100mm (W) x 50mm (H)
* with 4 channels stage 3 pin female socket & 32A CEE form Line male connectors.
* with 40cm cable (wired)

KRB-02 **Rubber Distribution Box with CEE form connectors**

* 275mm (L) x 100mm (W) x 50mm (H)
* with 3 channels CEE form female socket & 32A CEE form Line male connectors.
* with 40cm cable (wired)

KRB-03 **Rubber Pistribution Box with SHUKO connectors**

* 275mm (L) x 100mm (W) x 50mm (H)
* with 4 channels SHUKO form female socket & 32A CEE form Line male connectors.
* with 40cm cable (wired)

Custom Designs Welcome!

Head-to-Ballast Connector

The KUPO HB connectors' range is designed to meet the needs of head to ballast connections. HB series covers the range of power from 575W to 18KW used by Arri.

Features:

* Compatible with Veam CIR connectors
* Machined aluminum bodies with ribbed coupling ring to provide easy manual coupling and uncoupling
* Back-shell with scratch-resistant and black anodized
* Back-shell and cable clamps to fit different cable O.D.
* Waterproof to IP67
* Solder Type

Kupo Caps
Material: 100% cotton twill

Features:

* Adjustable Velcro closure
* 6 Panel cap
* Full Lining
* Aluminum eyelets
* Perfect embroidery
* High Quality KUPO Label
* Good Ventilation
* Fit to Distinguish Different Duties on Location

KCAP-01 Kupo Cap - Grip

KCAP-02 Kupo Cap - Lighting

OEM Welcome, Various Colors, Size and Customized Logo Are Available!

Director Chair
Due to popular demand Kupo now offer a range of light weight Aluminum directors chairs. Perfect for Backstage, Studio or Location. They are an industry standard seating solution.

KAC-01 Standard Director Chair
A Table height chair at 18" (475mm) These Chairs are casual functional, versatile and come with side table and bag for more applications.

Kupo Director chair is available in
Black Blue Synthetic Canvas.
Personalised embroidered inscriptions or silk screened logos available on Request.

Sand Bags

The KUPO solution to stabilizing equipment is supplied empty for economy of freight and means you can choose your preferred and locally available anchoring medium be it sand, shot, washer centers or lead weights to a maximum 35 lbs / 15 kg.

Designed in the versatile ” sanddlebag” system the Kupo bags can either drape over the leg of your stand or be hung on a cantilever arm from the robust side buckle supplied.

Featuring:

- Extra rivets combined with double stitching and Bias bindling inside for maximum strength. Longer and wider carry strap for ease and comfort.
- A generous Velcro seal of the highest available quality to ensure your load remains secure.
- A Plated metal hanging point for secure non slip fixing in handging mode.
- Double handle for easy use. One is short handle in the top ; The new design is the butterfly handle with Velcro on the back!
- Kupo Bags come with the Kupo lather logo on.

Butterfly Handle

Weight: 7.8kg (17.2lbs)

Replacement padded divider

* Watertight, airtight, unbreakable, crrosionproof and dustproof.
* With the retractable extension hanlde and wheels for traveling.
* With the balance air valve for opening the case cover.
* With the tool bag and paper bag inside.

KU-HAND is designed for multi-use to protect users. Its applications could be rigging, staging, grip, installation. The ergonomic design brings comfort and fit for everyone. Plenty of unbelievable features favor all users. Leather top is excellent on ventilation with padded mesh. Also, the two-way stretch of leather top creates flexibility. Synthetic leather palm is soft and durable, and also has extra layer leather for better protection. The extra layer leather not only on leather palm but also on index finger and thumb for extra strength. Morever, smooth surface of fingers and reinforced fingertips make perfect on handling objects and reduce wear. To conclude, KU-HAND is your best partner that you cannot miss to achieve any kind of job.

EZ-TIE is ideal for sound, lighting and audio/video equipment cable. EZ-TIE is made by Swiss-made looms and strict quality control to assure consistent quality with superior performance. Hook is made from A grade Nylon and has high peel and shear values with extended cycle life with average 55 hooks per sq inch. It is forming with high temperature to keep a better elastic and durable. The Un-Napped loop brings a very high cycle life with average 42 woofs per sq inch.

EZ-TIE has been tested under +93 degree C and -56.7 degree C for lasting 1000hrs matting without failed. The working temperature from 80 degree C to -20 degree C. High cycle life with over 10,000 closures. Washable, UV resistant to prevent discoloration.

The standard EZ-TIE available in two different sizes and five different colors:
Size (cm): **2.0 x 41 (EZ241)** 10pcs per pack
5.0 x 60 (EZ560) 5pcs per pack
Colors: Black (B), Red (R), Yellow (Y), Blue (BU), and White (W)
Please specify color code when order

* allows to organize cables neatly with ease
* can be used as an identification labels
* cable management
* ideal for wrapping stand legs
* perfect for use to strap the equipments to desk
* double "O" ring buckle designed makes easily for extand
* can be used as a temporary hanger for during installation
* double "O" ring buckle designed features to against many surfaces to hold any kinds of equipment

MEZ-TIE

MEZ Tie features molded precise hook, which is lighter and thinner than EZ Tie. The gap between hook and loop is only 1mm, whereas EZ Tie is about 2~3mm. Though it is thin, it still provides fasten thoroughly and super strong shear strength (average over 1200 g/sq.cm)

Owl cable clip

Owl cable clips are designed to hold the standard power cable along with the lighting stand or round tube in studio or on location. It is made of durable, flexible, one piece injection PC molded with a low-key transparent finished. The cable clips accommodate two 3cx1.5mmsq and one 3cx0.75mmsq wires through. Owl clips are reusable and easy to mount onto 40-50mm tube in one hand operation. Lets you organize and route wires just about any way you want to. Owlet clips with the same function as Owl clip but fitting smaller tube for 25-35mm O.D. (4 per pack)

KD-C40P Owl Clip (for 40~50mm)
KD-C25P Owlet Clip (for 25-35mm)

Color Correction Series
Kupo Color Correction Filters are used in applications where it is desirable to change color temperature of various light sources. These subtle and less saturated tones are ideal for Film, Movie, Photo Schemes. Better than gels!

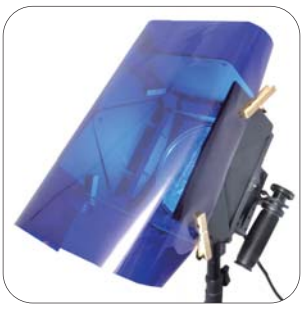
Custom Designs Welcome!

KCP-347 Wooden type C47 clothespin,
Wooden spring-type clothespin also called C47 is used to attach gels and diffusion to lighting fixtures and bran doors without heat transmission from the hot light. Also ideal for dying film and printing in the darkroom use as clips (50PCS per bag).

KCP-347

Package

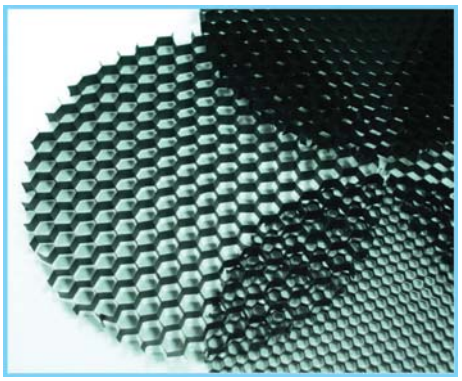
Application



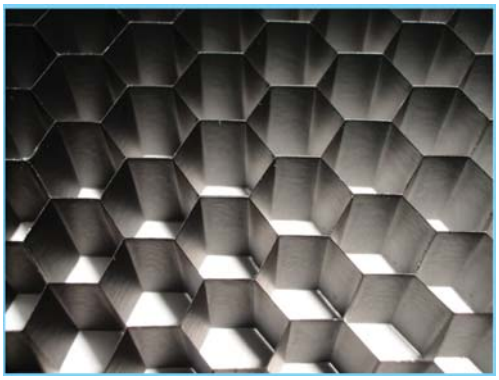
Honeycomb
Honeycomb is made up of the aluminum foil with a hexagon shape. It can be a shild to prevent the dazzle of illuminators.

Features:
Dazzle prevention
Light weight
Control the light path

Quality approval:
RoHS certification
The consistency of painting coating
No painting fading under UV illumination
With 250 degree C heat resistance



Specification:
Material : Aluminum foil
Color: Black , Silve
Available size
Square : 30mm - 300mm
Round: 30mm - 300mm
Available Thickness (Height)
3mm - 15mm
Aperture Size:
(1) 1/8” : 3.18mm
(Available thickness: 3 - 5mm)
(2) 3/16” : 4.76mm
(3) 1/4” : 6.35mm



Honeycomb with frame
Kupo is a professional manufactory.
We are very good at the hardware producing.
The Honeycomb can come with any kinds of frame you need by OEM base!

Custom Designs Welcome!

KUPO X-Bone is an ideal solution for needs on the move, featuring light weight, compact and durable. The patent structure makes it easy to fold and unfold in minutes, and aluminum alloy makes it light but sturdy for frequent usage. Six different size of length leaves versatile appearances and applications.
Features:

(1) made of high intensity aluminum alloy (6061), enduring deformation and load for 4.8~5.0 tons / square meter
(2) compact, light weight, and easy to build up and break down in around 2 minutes per set; need less space to archive
(3) stylish and slim profile; treated with anodized coating for rust-free
(4) different sizes make flexible applications accessible

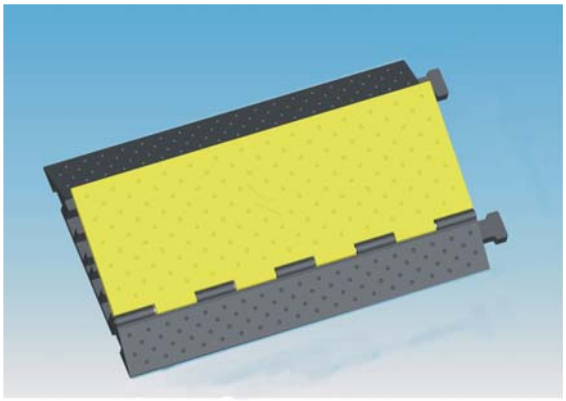
KXB-001P

Cam-step is an ideal to location shooting specially designed for photographers, videographers and anyone who needs temporary platform with compact size, lightweight and easy to deploy. It can be set up within 1 min by one person without any tool. Also, aluminum material of the plates and legs which stored well with supplied bags makes cam-step lightweight and convenient for storage and transportation. Size: 900mm x 900mm, Weight: 16KG, Height: 840mm, Max. loading: 400KG.

The whole set cam-step are included:
1) Foldable aluminum legs (I pc per set).
2) Two bags for legs, plates and holders.
3) Plate- holders (2 pcs per set)
4) Sturdy and lightweight aluminum plate (3 pcs per set)

CABLE CROSSOVER

The cable crossover is the cable protector that protects cables from moisture, oils and solvents, and is hight impact and load bearing. The standard KUPO cable crossover is 3 cable ducts and 5 cable ducts made from high density pressure moulded latex, back with highly visible orange lid. Each cable crossover has dog bone connector ends that can be connected to create any desired length. Easy to operation and protect a cable accross an average interior doorway. The operating temperature is -40 degree to 49 degree and the load bearing capacity is 2,000KG.



Part Number	Description	Weight (kg)
KCG-301-B 	3 CABLE DUCTS Insulated: YES Length: 1000mm Width: 310mm Height: 55mm Ducts Height: 35, 35, 35mm Max. Load: 2000 Kgs	15
KCG-501-B 	5 CABLE DUCTS Insulated: YES Length: 770mm Width: 485mm Height: 65mm Ducts Height: 42, 42, 18, 42, 42mm Max. Load: 2000 Kgs	18

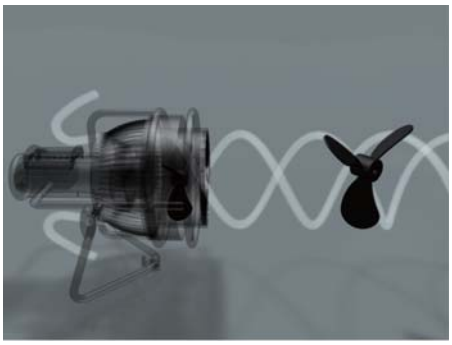
DigiFan DF-500 is a powerful and versatile special wind machine designed for studios, theaters, theme parks, touring, photographic and more. It is suitable for wide range application including blowing haze, smoke, bubbles, confetti or snow, cooling performers, dimmer racks or amplifiers even drying paint in studio. DF-500 can be controlled through standard DMX signal or master/slave operation through data link.

- Versatile yoke for overhead rigging, floor sitting or stand mounting.
- Housing is constructed from a molded lightweight plastic venting device with rugged tubular steel surrounded for transport and protection.
- The 11” one-piece blade and spiral front grill for creating narrow focus wind stream.
- Compact, lightweight and powerful.

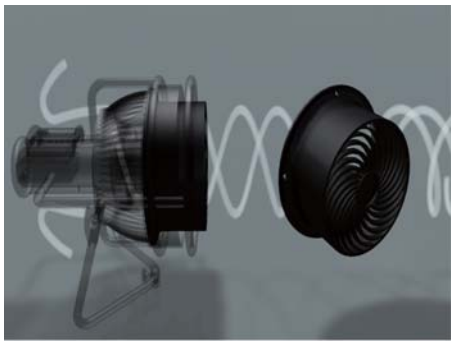
Specification:

- Power input: 80-240V AC, 1200W, Current Max. 10A.
- One touch turbo function: 0-3500RPM within 5 sec.
- DMX mode: DMX on-off and volume control
- Memory: 9 mode memory setting available
- Remote controller: Supplied w/3M cable
- Motor: 500W, Max. 3500RPM
- Air volume: 1700CBM/hr
- Wind speed: 60KM/hr
- Dimension: 480x560x460mm
- Weight: 12.5Kg

Four reasons DigiFan makes a vortex wind effect:

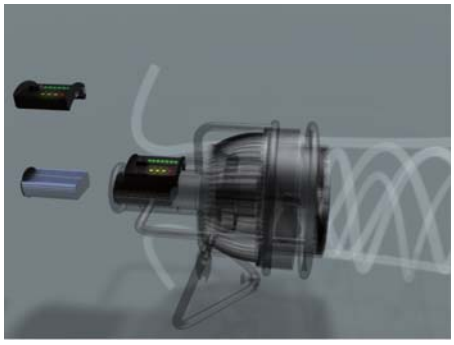


11” one piece deep pitch blade churn through the air, maximizing the amount of the air moved with the each turn of powerful motor.



The spiral shape designed front grill offset the direction of the air as it twists off the blade. This allows the air to travel long distance.

Air inlet duct tube ensures that the deep blade are fully enclosed in a cylindrical duct, air is sculpted into a column(beam of air).



To combine deep pitch blade, spiral grill, ducted tube and a switching power supply the multi function Digi fan is able to create a fully controllable vortex wind effect.

MPS-60
The MPS-60 is highly regulated 27VDC, 3.8Amp (cont.) power supply capable of supplying up to 60 BSP-1 beltpacks with all signal lights lit. It may be rack mounted or used as a table-top unit.
* Power required: 90-240VAC, 0.05A (None load), 1.5A@3.85A DC output 50-60Hz
* Power output: 27VDC+/-0.5V, 0-3.8A
* Audio termination: 200 Ohms unbalanced
* dimension: 4.5 x 48 x 23 cm, 1U high
* Weight: 3.5kg (7.75lbs)

BSP-1
BSP-1 is portable long-life comfort headset station. The easily control top panel for switching the microphone on and off, controlling listing level and signaling. The steel plate belt is elasticized for comfortable using. Compatible with all famous popular headset intercom.

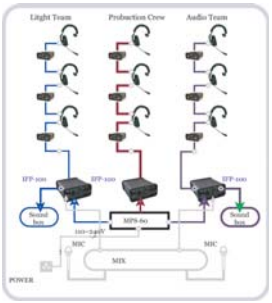
* Headphone output: 9-4K Ohms acceptable, 200 Ohms ideal
* Sidetone rejection: >50db
* Dimension: 93.98 x 109.22 x 63.5 mm
* Microphone input: 300-600 Ohms,dynmaic

PS-30
* Power supply: 110V-0.2A/220V-0.1A, 50-60Hz
* Output: Max. DC24V/1.0A
* Auto: Max. DC27V/1.7A
* Dimension: 45 x 260 x 104 mm
* Weight: 1.8kg

SMH-075
Microphone: Dynamic, 200hms
Earphone fq.:80Hz-110KHz
Sensitivity: 90db
Max. Power: 200mw
Limpedance: 200Ohm
T.H.D.: <2%
Connector: XLR-4pin / 1.5M

DMH-075
Microphone: Dynamic, 200hms
Earphone fq.:80Hz-110KHz
Sensitivity: 90db
Max. Power: 200mw
Limpedance: 400Ohm
T.H.D.: <2%
Connector: XLR-4pin / 1.5M

DMH-095
Microphone: Dynamic, 200hms
Earphone fq.:30Hz-10KHz
Sensitivity: 90db
Max. Power: 200mw
Limpedance: 200Ohm
T.H.D.: <3%
Connector: XLR-4pin / 1.5M



TALKBACK LOUDSPEAKER STATION
TLS-3 is a remote, 3-channel, selectable talkback speaker device, with the function to talk and/ or listen on the given channel. TLS comes with built-in 5W quality speaker and amplifier to monitor the communication clearly. LEDs on panel indicate which channel is selected or unselected to monitor. Receive- only provides paging function to existing intercom system without having to install separate paging amplifier and speaker. TLS-3 has a gooseneck-mic socket and feedback control circuit, giving hands-free full-duplex comunication without a headset.Power Input: DC/24-30V; Max. 500mA Headset Mic Input: 200~600 Ohms, Dynamic
Headphone Output: 200 Ohms ideal
Audio Speaker Output: Max. 5W; 94db SPL at one meter
Dimension: 11.00 x 26.50 x 17.00 cm
Net/ Gross Weight: 4.0/ 4.5 KG

The **IFP-100** is an active device, used for feeding a signal into your intercom system from an external source, or for feeding a signal from your intercom system to another audio device (or both).
The IFP-100 accommodates a wide range of input and output levels; it contains a studio quality microphone transformer and accept a signal directly from a good quality, low impedance, balanced or unbalanced microphone, as well as line-level signals. In every pack the two systems being interfaced are transformer isloated from one another, provided the IFP-100 is used as directed.
Power Input: DC/24-30V
Input: -20db (High); +3db (Low)
Output: +3db/ 600 Ohms balanced
Dimension: 12.50 x 5.00 x 10.50 cm

FogMate is Kupo's latest contribution to the field of special effect. This miniature fog generator is driven by compact rechargeable DC12V battery and equipped with built-in microprocessor to control and present all the functions. With its light weight and small dimension advantages, FogMate can be set promptly and flexibly where fog is needed. FogMate is an ideal alternative to the traditional fog machines for the locations of theatre, TV, film and photographic studio.

Standard Package:
FogMate Unit
- DC12V battery
- 100V to 240V AC
  12V DC charger
- Fluid tank
- 500ml fluid
- Portable case

D-5000Ⅲ Fogmate
Features:
* Power output: 70W
* Voltage: 12V battery
* Warm up: 1second
* Tank Capacity: 110ml
* Fluid consumption: 2ML/ min.
* Continuous output: 10min.
* Weight of unit: 900g
* Weight of battery: 680g
* Dimension: 226 (L) x 68 (W) x 113 (H) mm

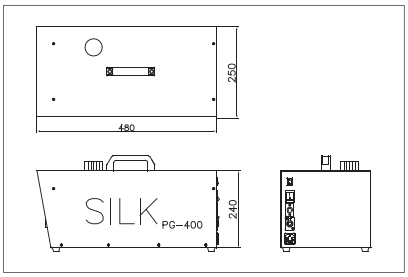
DCP-12
120V - 230V AC to 12V DC
transformer with dummy battery

MCR-1 Remote Controller

MCT-1 Timer Controller

FLQ-500 500ml Liquid

The **PG-400** Silk is a professional mist producer. It provides a light constant mist to enhance light beams. No more problems that you have met in the traditional fog machines. PG-400 Pro-Silk comes with a high quality air compressor instead of the heater and temperatrure control. Designed for movie, T.V. studios and live show....



Features:
* Fine & long hanging haze
* Leave no oil residue
* Built-in fan
* No need warm up, instant operation
* Powerful compressor for a bigger volume
* Portable and compact size
* Low oil consumption (1 liter liquid for 28Hrs.)
* Special designed tank to protect from liquid spill out

HC-1 Timer Controller
HC-1 is a special designed optional accessory for PG-500 and PG-400 haze machine.
It can control the haze output at intervals of 10-300 seconds with duration of 10-120 seconds.

Feaures:
* Dimensions (mm): 480(L) x 320(W) x 357(H)
* Weight: 21kgs
* Power Consumption: 250W
* Power: AC120V/ 60Hz or 230V/ 50Hz
* Cable Length: 10m

Optional Accessories
HCR-1 Wireless Remote Controller
Wireless remote controller for PG-500 and haze machine.
Features:
* Wireless, up to 50m
* Connector: 1/4 stereo

LIQUID
HZL-1 is oil-based. It is a non-toxic solution that produces a pure translucent haze with an long hang time and low moisture content.
HZL-1W is water-based. Both are 1 L for haze machine and comply with the strictest health and safety regulations.

M-5 **Fog Machine**

The features of M-5 is its tough and powerful output and added DMX control on-board. User can have completely control of his /her fog machine to create a totally extreme club atmosphere.
Features:
* Power: AC120V/ 60Hz, 230V/ 50Hz
* Heater: 1,500W
* Output: 20,000 cubic ft/ min.
* Tank Capacity: 10 liter
* Remote included: Z-20 (timer)
* Optional remotes: Z-30 (wireless)
* Weight: 15kg
* Dimensions (mm): 659(L) x 319(W) x 170(H)

Z-20 **Timer Controller**

Z-20 is the timer controller that
timer with interval, duration and
volume; continuous fogging;
manual on/off
cable lenght: 8m
connector: 5PIN XLR

Optional Accessories

Z-30 **Radio Wireless Remote Control**

Cable length : 2M
Wireless range : up to 50meters
Connector : 5pin XLR
Radio frequent add : 0~8

LIQUID

FL-104 **light fog liquid for fast dissipation (4L)**

FL-204 **light fog liquid for long lasting (4L)**

S-200 **Silent Snow Dropper**

* Power Consumption: 600W
* Output: 140ML/ min.
* Tank capacity: 5 Liter
* Weight: 12kg (26.5lbs)
* Power: AC120V/230V, 50Hz/60Hz

Features:
* The powerful big output S-200 can make an abundant supply of snow and shoot at considerable distance.
* The motor is attached with a rubber cushion that reduces vibration and noise, generating only 63dB that is as loud as people whisper lighty..
* Size & output volume of it can be regulate by remote control SC-2.
* Function of series connection is available.
* Quick evaporation residue to keep a safety environment.
* Supplied with remote control SC-1 and hanging bracket.

Snow Liquid
FL-203 snow juice designed for S-200 snow machine.
water based formula (safe) non-toxic and 100% biodegradable.

BM-0800 **Super Bubble Machine**

BM-0800 is designed to produce a solid, copious stream of bubbles. It can be operated continuously. Easy refills and its hanging bracket are its benefits.

Features:
* Optional Remotes: BCR-1
* Dimensions (mm): 341(L) x 170(W) x 172(H)
*Power Consumption: 25W
* Tank Capacity: 0.7 Liter
* Fluid Consumption: 2hurs / Liter
* Weight: 4.2kg
* Power: AC120V/240V, 50Hz/60Hz

Bubble Liquid
It is designed for use in the BM-0800 bubble machines, water based composition that creates vivid transparent bubbles, colorless, odorless and non-flammable
BL-1 **bubble liquid (1L)**
BL-5 **bubble liquid (5L)**
